RE: HUKILL CHEMICAL CORPORATION
TSD/LQG/TRANSPORTER
OHD001926740/02-18-0315
CUYAHOGA COUNTY
RETURN TO COMPLIANCE

Mr. Tim Jones
EH&S Manager
Hukill Chemical Corporation
7013 Krick Road
Bedford, OH 44146

Dear Mr. Jones:

I am in receipt of Hukill Chemical Corporation's letter dated April 3, 2007. The letter and attachments were submitted in response to Ohio EPA's notice of violation letter dated January 31, 2007, and the partial return to compliance letter dated March 26, 2007.

Previously cited violation three (3):

> Ohio Administrative Code (OAC) rule 3745-54-73(B)(2) and Permit Condition B.21; Operating Record.
>
> Hukill Chemical has modified the container inventory system. The issue with the system being unable to provide the volume of containerized waste on weekends has been resolved. The system has been modified to save the real time inventory total at 11:00 a.m. and 11:00 p.m. daily. This was not possible prior to the recent changes made to the system. The system will also provide the total volume of containerized hazardous waste in gallons instead of just the number of containers on-site.
>
> Based on the changes made to the inventory system, HCC has returned to compliance with the above cited violation. No further action is required at this time.

Hukill is making progress toward organizing the process chemical inventory. Ohio EPA briefly reviewed the SOP that is being developed during our March 30, 2007 meeting. HCC will provide more information once the draft SOP us finalized.

Should you have any questions or concerns, please do not hesitate to call me at (330) 963-1162.

Sincerely,

Marlene M. Kinney
