Dear Mr. Gustkey:

On February 13, 2012, I attempted to perform a hazardous waste inspection of the Ansell Edmont (Ansell) facility at 1300 Walnut Street in Coshocton, Ohio to determine its compliance with Ohio's hazardous waste laws and regulations, as found in the Ohio Revised Code and the Ohio Administrative Code (ORC and OAC, respectively).

I returned to the site on February 22, 2012 and met with Steve Saylor (Ansell) and Bill Glaze (August Mack) to perform my inspection including the applicable Cessation of Regulated Operations (CRO) requirements. We observed that Ansell has some security measures in place; however, the required signage has not been posted at the access locations around the facility and we had not received a signed, 30-day CRO form from Ansell. Notice of violation letters were issued to Ansell on February 27, and March 12, 2012. On February 28, 2012, I received a signed copy of EPA Form 0327. On April 4, 2012, I received your response which included photographs of the required signage posted at the access points around the facility and a copy of the weekly inspection log that will be used to maintain compliance, therefore, Ansell has returned to compliance with the following regulations:

1) OAC rule 3745-352-20(A)(1)(a) & (b).

I look forward to reviewing your 90 day form (EPA Form 0329).
