Mr. Adam Leachman
Gatling Ohio LLC
P.O. Box 960
New Haven, WV 25265

Dear Mr. Leachman:

On May 29, 2013 I visited the Meigs County locations listed above that have a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statues, Ohio Revised Code (ORC) Chapter 6111.

At the time of the inspection, the project did not appear to have begun. When the project does begin, you must implement storm water controls as outlined in Ohio EPA Permit OHC000003.

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact me at (740) 380-5447.

Sincerely,

Jared Kemper
