Dear Mr. Thompson:

On September 12, 2011, I conducted an inspection of your facility. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of the inspection, I have the following comment:

Your facility appeared to be in compliance with the General Construction Storm Water Permit that has been issued to you by the Ohio EPA. Please continue to implement permit requirements in the future.

As a reminder, waterline projects of this type can create major issues regarding public complaints and water quality concerns. Please make every effort to stabilize disturbed ground quickly to minimize these risks as the project moves forward.

If you have any questions, please contact me at (740) 380-5277.

Sincerely,

Aaron Wolfe  
Storm Water Coordinator  
Division of Surface Water
