Dear Mr. Holt:

Thank you for your August 14, 2008 and November 7, 2008 response to Ohio EPA's July 14, 2008 Notice of Violation letter. The documentation you submitted included waste evaluations for both the 55 gallon drum and 5 gallon pail of unknown waste discovered at the time of the inspection. Also included in this submittal was an updated Integrated Contingency Plan along with the current facility procedures for evaluating and handling waste at the facility. My review of this documentation reveals that Sherwin Williams has now abated all violations discovered during the June 30th, 2008 inspection as listed below.

Letter Citation #	Rule Citation
1.	OAC Rule 3745-52-11, Waste Evaluation
