**Re:** Washington County  
Dupont CRG, Washington Works Plant  
Compliance Evaluation Inspection (CEI)  
Correspondence (IWW-WP)

Mr. Andrew S. Hartten, Project Manager  
DuPont Corporate Remediation Group  
4417 Lancaster Pike  
Wilmington, DE 19805

Dear Mr. Hartten:

On August 4, 2010, a Compliance Evaluation Inspection (CEI) was conducted at DuPont CRG's Washington Work Plant. The purpose of the inspection was to determine DuPont's compliance with its National Pollutant Discharge Elimination System (NPDES) Permit. Present for the inspection were Tom Clutter, URS, representing DuPont and Scott Foster and Stephen Wells representing Ohio EPA, Southeast District Office, Division of Surface Water. No wastewater samples were taken as part of the inspection. A copy of my inspection report is attached.

As a result of my inspection, I have the following comments:

1. The facility is in the process of installing a new sand filter bed for the treatment of the discharge from the carbon filtration units. The facility has had some violations for Total Suspended Solids (TSS) during the discharge from the change out of the carbon filtration units. The addition of the sand filter should help correct these TSS violations.
2. There was no discharge at the time of the inspection. A carbon change-out was scheduled for earlier this month.

In conclusion, DuPont Corporate Remediation Group appeared to be in compliance with its NPDES Permit at the time of the inspection.

If you have any questions, feel free to contact me at (740) 380-5434.

Sincerely,

Stephen Wells  
District Representative  
Division of Surface Water

SW/dh

Enclosure

c: Thomas W. Clutter, URS Corporation

# NPDES Compliance Inspection Report

## A. NATIONAL DATA SYSTEM CODING

Permit No.	NPDES No.	Date	Inspection Type	Inspector	Facility Type
0IN00262*AD	OH0139696	August 4, 2010	C	S	2
