Re: Lawrence County
Hanging Rock Landfill
Recon Inspection
Correspondence (IWW)

Mr. Tim Dickens, Manager
Hanging Rock Landfill Company, Inc.
P.O. Box 100
Ironton, Ohio 45638

Dear Mr. Dickens:

On December 3, 2010, an inspection was conducted at the Hanging Rock Landfill Company's closed landfill. The purpose of the inspection was to determine Hanging Rock Landfill Company's compliance with its National Pollutant Discharge Elimination System (NPDES) Permit. Present for the inspection were Tim Dickens representing Hanging Rock Landfill and Joe Holland, Pete Thompson and Stephen Wells representing Ohio EPA, Southeast District Office. A copy of inspection report is attached.

The three ponds at the landfill were observed as part of the inspection. No problems were observed at the ponds. The ponds were installed to capture runoff from the closed landfill. The cap for the closed landfill has established a good cover of vegetation to eliminate any sediment runoff into the ponds.

Mr. Dickens inquired about the possibility of eliminating the need for an NPDES Permit for the discharges from the ponds since it was only surface water runoff. After inspecting the site and reviewing the monitoring results, Ohio EPA will begin processing a No Permit Required (NPR) for the NPDES permit in the near future. Hanging Rock Landfill will need to continue following the existing NPDES Permit until the NPR is issued. However, Hanging Rock Landfill will not need to submit the renewal NPDES Permit Application.

In conclusion, Hanging Rock Landfill Company appeared to be in compliance with its NPDES Permit at the time of the inspection.

If you have any questions, feel free to contact me at (740) 380-5434.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen Wells", with a long horizontal flourish extending to the right.

Stephen Wells
District Representative
Division of Surface Water
