Please be advised that failure to comply with the effluent limitations or to satisfy the monitoring or reporting requirements of your NPDES permit may be cause for enforcement action pursuant to the Ohio Revised Code Chapter 6111.

Please inform this office, in writing, within ten days of receipt of this notification as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.

As we spoke on the phone in September, we can meet at the facility to thoroughly evaluate operations and discuss options to bring this plant into compliance. Please send in your National Pollution Discharge Elimination System permit application as soon as possible as discussed on the phone in September to avoid possible enforcement action.
