Dear Mr. Broderick:

On July 27, 2011, I performed a compliance inspection of the filter backwash treatment plant serving the Leading Creek Conservancy District. Mr. Elbert Williams Jr. accompanied me and represented Leading Creek Conservancy District during the inspection. The purpose of the inspection was to determine if the wastewater treatment plant was meeting the terms and conditions set forth in its NPDES permit.

At the time of the inspection, the plant was in good operating condition. The lab was in excellent condition. Start documenting when the operators calibrate for the chlorine for the wastewater sample. The sand filters need to be weeded.

Should you have any questions, please feel free to contact me at (740) 380-5266.

Sincerely,

Cynthia Yandrich
