**Re:** Muskingum  
Dun-Falls Association  
2011 CEI  
Correspondence (PWW)

Mr. Scott Stutes, President  
Dun-Falls Association  
P.O. Box 266  
Duncan Falls, Ohio 43734

Dear Mr. Stutes:

On June 10, 2011, I conducted a Compliance Evaluation Inspection at Dun-Falls Association WWTP located in Duncan Falls, Ohio. On June 3, 2011, Mike Wisecarver represented Dun-Falls Association and accompanied me during the records review portion of the inspection at his office. The purpose of the inspection was to determine Dun-Falls Association's compliance with NPDES Permit Number 0PX00000\*HD and the Ohio Water Pollution Control Act, Revised Code Chapter 6111.

As a result of the inspection and review of our files, I found no apparent violations.

Attached is a copy of the inspection report which indicates the areas evaluated during the inspection. Dun-Falls Association should take the appropriate actions to maintain the facility in compliance with all terms and conditions of the NPDES permit.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention

programs. For more information about pollution prevention, including fact sheets and U.S. EPA's Facility Pollution Prevention Guide, (EPA/600/R-92/088), you may contact the Ohio EPA Pollution Prevention Section at (614) 644-3469 or me for additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Foster", with a long horizontal line extending to the right.

Scott Foster  
Environmental Specialist 2  
Division of Surface Water
