Dear Ms. Snyder-Lowe:

On November 15, 2007, I conducted a Compliance Evaluation Inspection for the Morgan Jr and Sr High School Wastewater Plant. The following are comments from the inspection:

1. The north sand filter was clogged and not draining properly. Everything else in the plant seemed to be satisfactory other than the sand filter. It may just need to be switched and the south filter put into service and maintenance performed on the north filter. I have attached a photo of the filter.

I would rate this inspection as satisfactory.

If you have any comments or questions, please feel free to call at (740) 380-5227.

Sincerely,
