**Re: Guernsey County
Spring Valley Campground
Compliance Evaluation Inspection
Correspondence (PWW)**

Mr. Ed Hlad
Spring Valley Campground
8000 Dozer Road
Cambridge, Ohio 43725

Dear Mr. Hlad:

On June 12, 2007, I conducted a compliance evaluation inspection (CEI) at the Spring Valley Campground's wastewater treatment plant. The purpose of the inspection was to determine compliance with the terms and conditions of National Pollutant Discharge Elimination System (NPDES) permit number OPR00143*AD. Mr. Jim Duty, plant operator and yourself were present at the time of my inspection.

Based on the findings of my inspection and the review of our records, I have the following comments:

1. Inspection of the settling tank showed minimal surface scum which was being removed through the skimmer return. The weir was observed relatively clean with uniform flow over the weir plates except for one leaking bolt hole. The bolt hole should be repaired to insure uniform flow over the weir.
2. The ozonator was found to be in operation and the effluent was observed relatively clear and free of any objectionable odors.

As a result of my inspection, the treatment plant was found to be in substantial compliance with the terms and conditions of the NPDES permit. Attached is a copy of my detailed inspection report. If you have any questions, please contact me at (740) 380-5416.

Sincerely,

Jake Greuey
District Representative
Division of Surface Water
