Correspondence (IWW)

Mr. Darren Dimmerling
Christman Quarry
47248 Swazey Road
Lewisville, Ohio 43754-9410

Dear Mr. Dimmerling:

On October 20, 2008, Tim Campbell, Aaron Wolfe and I conducted a compliance evaluation inspection at Christman Quarry to check the company's compliance with its NPDES permit. We were accompanied by Mark Moellendick and you. The following are comments from the inspection:

1. Pond #2 - The spillway was partially blocked by debris. Removing the debris will insure proper evacuation of water from the pond.
2. Pond #4 - The discharge was clogged on the pond. The water could evacuate by rising to overflow across the road and into the receiving stream, but this could lead to road erosion and a loss of solids. The cause of the blockage should be removed to allow for proper water discharge from the pond.
3. Pond #5 - The berm around the pond should be raised 18 inches to provide a larger storage capacity of runoff water during a storm event.

If you have any additional questions or comments, please feel free to call me at (740) 380-5227. An inspection report is attached.

Sincerely,

Scott Foster
Environmental Specialist 2
Division of Surface Water
