Re: Perry County
Tunnell Hill Reclamation
Storm Water Construction Activity
Notice of Violation
0GC00346*AG

Mr. Rod Deeds
Tunnell Hill Reclamation
544 Chestnut Street
Coshocton, Ohio 43812

Dear Mr. Deeds:

On July 9, 2007, I visited your site on Tunnell Hill Road and spoke to you about stormwater controls needed on your site. The purpose of the inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for the discharge of stormwater associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. The following areas need to be addressed:

1. **The stock piles of both top soil and rock/clay must be stabilized if they have been dormant for more than 21 days.** Part III.G.2.b.i. (Table 2) of the permit requires that any area that will lie dormant for more than 21 days, but less than a year be stabilized within 7 days of the most recent disturbance.

Sediment and erosion controls for your site must meet the guidelines and design criteria set forth in the above mentioned *Rainwater and Land Development* manual. A copy of this manual may be obtained by contacting the Ohio Department of Natural Resources, Division of Soil and Water Conservation, at (614) 265-6610.

Within fourteen (14) days of receipt of this letter, please submit to me at this office a *written notification as to actions taken or proposed to eliminate violations of the permit.* Your response should include the dates, either actual or proposed, for the completion of the actions. If you have any questions, please contact me at (740) 385-8501 or Aaron Wolfe at (740) 380-5277.

Sincerely,

Nathan Weber
