**Re: Perry County
Ebenezer Baptist Church
Storm Water Construction Activity
Notice of Violation
0GC01114*AG**

Mr. Erwin Wolfe
6682 S.R. 312
Logan, Ohio 43138

Dear Mr. Wolfe:

On June 23, 2008, I visited your site on 7035 TR 234 SW. The purpose of the inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of stormwater associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. The following areas need to be addressed:

1. Part III.G.2.b.i. (Table 2) of the permit requires that any area that will lie dormant for more than 21 days, but less than a year be stabilized within 7 days of the most recent disturbance. **The area that was disturbed for the utilities going along the road needs to be stabilized immediately.**
2. Part III.G.2.d.iii of the permit requires silt fence to be installed on a level contour. Silt fence should be utilized in accordance with the specification of the Rainwater and Land Development manual. **Repair all down silt fence. Rip rap needs to be use in the areas that have channelized flow.**

Sediment and erosion controls for your site must meet the guidelines and design criteria set forth in the above mentioned Rainwater and Land Development manual. A copy of this manual may be obtained by contacting the Ohio Department of Natural Resources, Division of Soil and Water Conservation, at (614) 265-6610.

Within fourteen (14) days of receipt of this letter, please submit to me at this office a written notification as to actions taken or proposed to eliminate violations of the permit. Your response should include the dates, either actual or proposed, for the completion of the actions. If you have any questions, please contact Aaron Wolfe at (740) 380-5277 or me at (740) 380-5418.

Sincerely,

Philip Webb
