Mr. Todd Jenkins
430 Country Club Drive
McDermott, Ohio 45652

Dear Mr. Jenkins:

On June 12, 2008 I inspected your home site. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. The following areas need to be addressed:

1. Ensure that all areas of the site are stabilized with seed and straw immediately. Most portions of the site are covered very well with grass but some portions are barren. These barren portions must be stabilized.
2. Install rock check dams along the road ditch that enters from the left side of the property and extends to the top of the hill. This is a very important point that must be addressed. Severe erosion will occur this spring if measures are not taken immediately.
3. I recommend that you not cut the grass until the property is 100% stabilized.
4. I have attached pictures to document areas of concern.

If you have any questions, please feel free to contact me at (740) 380-5277.

Sincerely,

Aaron Wolfe
Division of Surface Water
