George Broughton
Broughton Commercial Park
639 State Route 821
Marietta, OH 45750

Dear Mr. Broughton:

On July 7, 2010, Lynn Parkins and I visited the site located on State Route 821 in Marietta that had a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statues, Ohio Revised Code (ORC) Chapter 6111.

Please continue to implement permit requirements as construction continues.

As a reminder, if your project disturbs more than five acres, you are required to implement post construction water quality volume storage requirements for permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or me at (740) 380-5418.

Sincerely,

Chris Stephan
