Correspondence (IWW)

Mr. Steven Bell  
Ohio Basic Minerals  
15317 Beaver Pike  
Jackson, Ohio 45648

Dear Mr. Bell:

On August 10, 2011, Aaron Wolfe and I conducted an inspection of the Ohio Basic Minerals-Anderson Sand Loading Facility. The purpose of the inspection was to determine the facility's compliance status with the terms and conditions of NPDES permit number 01J00053\*AD. A copy of the inspection report is attached.

It appears the operation on Ricubaugh Road has expanded outside of the original boundary without the use of storm water controls to prevent runoff from entering waters of the state. Please submit an updated Storm Water Pollution Prevention Plan (SWPPP) to this office. Be sure the SWPPP is complete and includes all important information including the future reclamation of the site.

According to ODNR you recently received mining permits for the Ricubaugh Road site. Be advised that your NPDES permit does not cover activity from mining and your permit will need to be modified to include the increased loading and Permit to Install may also be required if new settling ponds are needed. If you have any questions please call me at (740) 380-5268.

Sincerely,

Jack Knapp  
District Representative  
Division of Surface Water

JK/dh

Enclosure: Inspection Report

**NPDES**  
Compliance Inspection Report

**A. NATIONAL DATA SYSTEM CODING**

Permit No.	NPDES No.	Date	Inspection Type	Inspector	Facility Type
0IJ00053*AD	OH0140007	August 10, 2011	R	S	2
