Correspondence (PWW)

Scioto County Commissioners
602 7th Street, Courthouse
Portsmouth, Ohio 45662

Dear Commissioners:

On February 16, 2011, I conducted a Compliance Evaluation Inspection at Scaff-Starrett WWTP located in West Portsmouth, Ohio. Ryan Smith represented Scioto County and accompanied me during the inspection. The purpose of the inspection was to determine Scioto County's compliance with NPDES Permit Number OPG00046*ED and the Ohio Water Pollution Control Act, Revised Code Chapter 6111.

As a result of the inspection and review of our files, I found no apparent violations.

Attached is a copy of the inspection report which indicates the areas evaluated during the inspection. Scioto County should take the appropriate actions to maintain the facility in compliance with all terms and conditions of the NPDES permit.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets and U.S. EPA's Facility Pollution Prevention Guide, (EPA/600/R-92/088), you may contact the Ohio EPA Pollution Prevention Section at (614) 644-3469 or me for additional information.

Sincerely,

Scott Foster
District Representative
Division of Surface Water
