Re: Lawrence County
Honeywell International, Inc.
Recon Inspection
Correspondence (IWW)

Mr. Pat Holmes, Project Manager
CH2M Hill - Ironton Site
3329 South Third Street
Ironton, Ohio 45638

Dear Mr. Holmes:

On August 24, 2011, a recon inspection was conducted at the Honeywell Ironton Facility. The purpose of the inspection was to determine Honeywell's compliance with its NPDES Permit. Present for the inspection were Charles Miller and Ron Cade representing CH2M Hill, Honeywell's contractor, and Stephen Wells representing Ohio EPA, Division of Surface Water, Southeast District Office. No wastewater samples were collected as part of the inspection. A copy of my inspection report is attached.

A walk through of the wastewater treatment facility was done. No problems were noted and the facility appeared to be operating properly. In April, 2011, the facility did miss monthly sampling for NPDES Permit parameters. The facility has taken steps to address the missed samples. No further information is requested for this instance.

In conclusion, Honeywell appeared to be in compliance with its NPDES Permit at the time of the inspection.

No response to this letter is requested. If you have any questions, feel free to contact me at (740) 380-5434.

Sincerely,

Stephen Wells
District Representative
Division of Surface Water
