Fairfield, Ohio 45014

Dear Mr. Green:

Thank you for your response to Ohio EPA's March 30, 2007 Notice of Violation letter, which we received on May 2, 2007. The documentation you submitted included: waste analysis documentation for the solvent contaminated rags and PVC tape demonstrating these items are non-hazardous; satellite accumulation container management and training information; and universal waste management plans.

My review of this documentation and the May 15, 2007 re-inspection reveals that L.W.G. Finishing Company has now abated all violations and compliance issues discovered during the March 8, 2007 inspection as listed below.

Letter Citation #	Rule Citation
1	OAC Rule 3745-273-13(D)(1), universal waste
2.	OAC Rule 3745-52-34(C)(2), Accumulation Time of Hazardous Waste
3.	Request for solvent contaminated rag information
4.	Request for PVC tape information
