Ms. Peggy Snyder
Trutec Industries Inc.
4700 Gateway Blvd.
Springfield, Ohio 45502

Dear Ms. Snyder:

Thank you for accompanying me during Ohio EPA's November 22, 2010 and November 29, 2010 inspection of Trutec's facility in Springfield, Ohio. I inspected Trutec to determine its compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745 of the Ohio Administrative Code (OAC). My inspection included a review of company operations and written documentation.

I found the following violations of Ohio's hazardous waste laws:

1. **OAC Rule 3745-279-22(C), Used Oil Storage Requirements for Generators:**
Containers used to store used oil at generator facilities must be labeled with the words "Used Oil".

Trutec failed to label used oil totes with the words "Used Oil". They were labeled as non hazardous during the November 29, 2010 inspection.

In a 12/17/10 e-mail, you sent me pictures showing that the totes are now labeled with the words "Used Oil". This action **corrected** the above violation.

2. **OAC Rule 3745-66-95, Large Quantity Generator Tank System Inspections:**
Each operating day (each day that the tank system is being used to store hazardous waste), the generator must inspect the spill control equipment, above ground portion and the area surrounding tanks for signs of erosion or release of hazardous waste.

During the November 29, 2010 inspection, the November 22, 2010 daily tank inspection could not be located. However, upon inspecting your records on November 29, 2010 I determined Trutec resumed daily tank inspections after this date. This action **corrected** the above violation.

General Comments

During inspection, I had some difficulty viewing some of the labels on the drums in the 90 day storage area due to drum orientation. Please submit a plan to abate this difficulty to me ***within 30 days*** of your receipt of this letter.

Also, please let me know what type of universal waste Trutec manages. Refer to the enclosed RCRA Subtitle C Site Identification/Verification Form, and identify what boxes need to be checked.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at:

REMARKS-GENERAL INFORMATION

General Process Information:

Trutec Industries heat treats metal parts. The cyanide oil quench results in D007/F010, F011 and F012 hazardous waste. Removal of oil from the parts after oil quenching via vapor degreasers results in F001/D004 hazardous waste.

Regulatory/Enforcement History (if applicable):

Findings and Orders (with a penalty & P2 SEP) were finalized in 2004.
