Dear Mr. Wilson:

Thank you for your response to Ohio EPA's April 18, 2007 Notice of Violation letter. You cleaned up the used oil released to the soil surrounding your used oil tank. You also implemented my recommendation of placing a drip pan under the tank.

My and Brian Marlatt's May 18, 2007 inspection of your used oil tank revealed that After Warranty Service has abated the violation discovered during the March 20, 2007 complaint investigation as listed below.

Rule Citation

OAC Rule 3745-279-22(D), Used Oil Storage Requirements for Generators

RECOMMENDATION

During Ohio EPA's May 18, 2007 inspection, Brian Marlatt and I recommended the use of either a tarp or overhead cover for the used oil tank to prevent rainwater overflow from the drip pan.

If you should have any questions, please feel free to contact me at (937) 285-6091.

Sincerely,

Pam Hull
District Representative
