Dear Mr. Miller:

Thank you for your November 12, 2007 response to Ohio EPA's October 22 Notice of Violation (NOV) letter. Your response included Greif Industrial Packaging & Services' updated contingency plan. A review of this update verifies that it now includes a listing and map of all emergency equipment.

Therefore, Greif Industrial Packaging & Services (GIP) has **abated** the **remaining violation** discovered during Ohio EPA's October 2, 2007 compliance evaluation inspection (CEI) as listed below.

Letter Citation #	Rule Citation
6	OAC Rule 3745-65-52(E), Content of Contingency Plan

Violations 1, 2, 3, 4 and 5 were **corrected** during Ohio EPA's October 22, 2007 compliance evaluation inspection. GIP also addressed the concerns identified in Ohio EPA's October 22, 2007 NOV letter. I have filled out *Section 10.B.* of the **RCRA Subtitle C Site Identification/Verification Form** (copy enclosed) until now that GIP has identified the types of universal waste generated.

If you should have any questions, please feel free to contact me at (937) 285-6091.

Sincerely,

Pam Hull

DARKE COUNTY
CRO NOV/RTC**

Mr. Nick Sheets
Greif Packaging, LLC
366 Greif Parkway
Delaware, Ohio 43015

Dear Mr. Sheets:

On June 26, 2009, Ohio EPA conducted an inspection of Greif's facility located at 526 Markwith Ave. in Greenville, Ohio to determine your compliance with Ohio's Cessation of Regulated Operations (CRO) laws and rules as found under Chapter 3752 of the Ohio Revised Code (ORC) and Chapter 3745-352 of the Ohio Administrative Code (OAC). Bob Anderson represented Greif, and I represented Ohio EPA. Based on this inspection, Ohio EPA has determined that Greif violated the following state CRO law and rules:

1. Warning Sign Requirements, ORC 3752.07(A) and OAC 3745-352-30(B):

Within 30 days after CRO, you are required to post the following signs: (1) one that prohibits trespassing and states "The building, structure, or outdoor location of operations contains or is contaminated with regulated substances that may endanger public health or safety if released into the environment." and (2) another that is posted on or reasonably proximate to locations that contains ignitable regulated substances and includes the language, "No Smoking". These signs are to remain until all regulated materials are removed from the facility.

Greif failed to post these warning signs and **also failed to keep a log of their condition as required by OAC 3745-352-30(C)**. No signs were observed on June 26, 2009, and per our telephone conversation on July 13, 2009 no log of their condition was kept either. Ohio EPA's June 26, 2009 inspection verified that no regulated materials remained at Greif. This action **corrected** the above violations.

Additionally, we spoke on July 13, 2009 about deactivation of your EPA I.D. number and generator closure. I am leaving both CRO Checklist items 19 and 21 unanswered, respectively, given you are unsure about deactivating your ID number at this time and have not performed generator closure, to-date. When you decide to deactivate your ID number, please submit a deactivation request letter to:

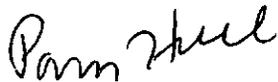

Ohio EPA-DHWM
P.O. Box 1049
Columbus, OH 43216-1049

Also, on July 7, 2009, I e-mailed information to Greif regarding Ohio EPA's generator closure requirements. You had asked if a statement that none of the hazardous waste stored in Greif's 90 day storage building would react with/penetrate through the concrete floor of this building. This type of information (along with any other info, such as the condition of the floor) would suffice. Ohio EPA recommends you create a memo as documentation to keep in your files as proof of generator closure.

I have enclosed a copy of the checklists completed during the inspection. Should you have any questions, please feel free to call me at (937) 285-6091.

Sincerely,

Pam Hull
