RE: B and W Diesel Complaint Investigation
Used Oil Generator
OHD044442978
Hamilton County
RTC for violation discovered on 4/28/11

Mr. Boots Dyas
B and W Diesel Company
1494 State Ave.
Cincinnati, Ohio 45204

Dear Mr. Dyas:

On June 16, 2011 I performed a return to compliance inspection of your garage. You labeled your used oil tank which abated the violation listed below:

Letter Citation #	Rule Citation
1	<i>OAC 3745-279-22(C), Used Oil Storage Requirements for Generators</i>

Also, you provided me the contact information for your used oil hauler. On June 23, 2011, Enterprise Oil faxed me copies and information regarding your last three shipments. Therefore, based upon my April 28, 2011, June 16, 2011 site visits and review of the June 23, 2011 documentation, I have determined the April 5, 2011 **complaint allegations are unfounded.**

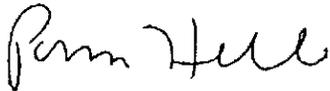

Enclosed is a revised copy of the checklist that I completed as a result of the complaint investigation. You can find Ohio's hazardous waste rules and other information on the division's web page at:

Mr. Grant Garrison
Buffers and Biochemicals Corp.
150 Commerce Blvd.
Loveland, OH 45140

Dear Mr. Garrison:

On July 26, 2007, Ohio EPA conducted an inspection of Buffers and Biochemicals Corp's Loveland, Ohio facility to determine your compliance with Ohio's Cessation of Regulated Operations (CRO) laws and rules as found under Chapter 3752 of the Ohio Revised Code (ORC) and Chapter 3745-352 of the Ohio Administrative Code (OAC). You represented Buffers and Biochemicals Corp. (B&B). Tom Ontko and I represented Ohio EPA. Based on this inspection, Ohio EPA has determined that B&B violated the following state CRO laws and rules:

1. Duties of Owner/Operator within 90 Days of Cessation, ORC Section 3752.06 and OAC 3745-352-20(2):

Within 90 days of ceasing regulated operations, you must submit a copy of the most recent chemical inventory form submitted to the State Emergency Response Commission (SERC) in accordance with ORC §3750.08, including a statement indicating whether any asbestos-containing materials are present at the facility. You must also submit a copy of the most current hazardous chemical list (or MSDS's) that you are required to have on file with the SERC under ORC §3750.07. You must also submit a list and location of every stationary item on site that contains or is contaminated with a regulated substance, including an identification of the regulated substance in each. All stationary and non-stationary containers or vessels or transformers, vats, or tanks and their contents and debris, non-stationary equipment and furnishings, motor vehicles and rolling stock that are contaminated with a regulated substance must be legally removed or drained from the facility.

B&B failed to submit a copy of the most recent emergency and hazardous chemical inventory form submitted to the SERC and the most current hazardous chemical list with your written certification provided on the form

prescribed by the Director (Regulated Substance & Equipment Removal 90-Day Form, EPA 0329). B&B has also failed to remove all regulated substances at the facility. At the time of inspection, many regulated materials still needed to be moved to B&B's location next door (154 Commerce Blvd.). You also provided me with an estimate from a treatment storage and disposal facility for the removal of drums and lab pack materials. You explained that you were awaiting the owner's return from out of town before the estimate could be approved.

B&B must immediately perform the required activities stated above and submit documentation confirming this to this office. Documentation exhibiting compliance should include photos, waste manifests or bills of lading, and any other documentation deemed appropriate.

2. Building, Structure or Outdoor Location to be Secured Against Unauthorized Entry; Warning Signs, ORC §3752.07 and Facility Security Requirements, OAC rule 3745-352-20:

Within 30 days after the cessation of regulated operations at a facility, the owner or operator must secure each building, structure, or outdoor location of operation where regulated operations were conducted by boarding windows, doors, and other methods provided in OAC Chapter 3745-352-20. Warning signs that prohibit trespassing and that state specific language as provided in the law and rules must be in posted in publicly visible locations in accordance with OAC Chapter 3745-352. B&B failed to post warning signs.

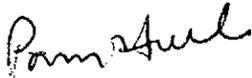

Entry barriers and warning signs must be inspected weekly and maintained. These inspections must be conducted weekly and recorded in a log. This log must be available during inspection. At a minimum, the log shall note the condition of each barrier and warning sign. Any damaged, lost, or removed barrier or sign shall be promptly replaced. B&B failed to maintain an inspection log.

B&B must immediately perform the required activities stated above and submit documentation confirming this to this office. Documentation exhibiting compliance with the facility security requirements should include photos of implemented security measures and posted warning signs.

If yes, where are the wells?

What are the wells used for?

7. Is there open dumping of solid waste on the property? Yes^{vi} ___ No ___

REMARKS

- 1 Will wait to answer these questions once final inspection occurs.

i. In lieu of the facility now submitting a form, the inspector should submit a copy of the final CRO letter to Central Office's Regulatory and Information Services for I.D. deactivation.

ii. Supply the facility with the requirements for generator closure and tell them they must close the unit and have documentation that closure was completed (LQGs only).

iii. Check with the appropriate agency to determine if a form has been received.

iv. Supply the facility with a form and contact the appropriate agency stating that demolition will occur.

v. If used for drinking water, let DDAGW know about the well.

vi. Let DSIWM know about the open dumping of solid waste.
