Dear Mr. Shapiro:

On April 16, 2008, Ohio EPA and the Cincinnati Health Department conducted a follow up inspection of River Road Auto Parts. Rick Thornburg and Matt Clayton represented the Cincinnati Health Department. I represented the Ohio EPA. The purpose of the visit was to determine if your facility had corrected the violations cited in the March 22, 2007, notice of violation letter.

Based on the inspection, Ohio EPA has determined that River Road Auto Parts has abated the following hazardous waste violations:

1. **Waste management - standards for small quantity handlers of universal waste, Ohio Administrative Code (OAC) 3745-273-13(A)(1)**
2. **Labeling/marketing – standards for small quantity handlers of universal waste, OAC 3745-273-14(A)**
3. **Employee training for small quantity handlers of universal waste, OAC 3745-273-16**
4. **Response to releases – standards for small quantity handlers of universal waste, OAC 3745-273-17(A)&(B)**

If you have any questions, please call me at (937) 285-6093.

Sincerely,
