Subject: TnT Auto and Truck Repair

.....

On June 11, 2007 I investigated a complaint at **TnT Auto and Truck Repair**. The facility was cited for failure to label a 150 gallon used oil tank with the words "Used Oil".

On October 25, 2007 I returned to **TnT Auto and Truck Repair** to discover the business had gone out of business. A neighbor stated that they left the property about three months ago. I was able to look into the window and see that the tank had been labeled. Therefore **TnT Auto and Truck Repair** is no longer in violation.
