**Re: Transportation Research Center, 10820 State Route 347, East Liberty,
Logan County, OHD 981794142, Notice of Violation**

Dear Mr. Powers:

On April 19, 2007, I met with Rose Ann Miller to conduct a return to compliance inspection at Transportation Research Center (TRC) in East Liberty. I inspected the waste fluorescent lamp storage area and the satellite area in Building 70. I also received a copy of the annual report from you on April 4, 2007.

Telephone conversations with you revealed that you would be using the sodium nitrate in your boiler, thus it is not considered a waste.

After reviewing the documentations, the discussions, and the April 19, 2007, inspection of the facility, TRC is now in compliance with the following:

- OAC 3745-52-41, Annual report**
- OAC 3745-52-34(C)(1)(a), Satellite areas**
- OAC 3745-66-74, Weekly Inspections**
- OAC 3745-273-13(D)(1), Universal Waste Lamps**
- OAC 3745-273-14(E), Universal Waste Lamps**
- OAC 3745-279-22(C)(1), Used Oil Label**

With that, TRC has returned to compliance with the hazardous waste regulations. Thank you for your action on the above violations. If you have questions, please call me at (937) 285-6080.

Sincerely,

Debora Roth, P.E.
