Re: Grease Monkey, Used Oil Generator, Complaint Investigation, 4601 Linden Avenue, Dayton, Ohio, Montgomery County, Ohio EPA ID Number: Not assigned

Dear Mr. Twedt:

On March 23, 2007, Marianne Piekutowski and I met with Mr. Doug Brown and Mr. Carl Fitch to discuss a complaint Ohio EPA received regarding your property at 4601 Linden Avenue in Dayton, Ohio. Ms. Piekutowski and I represented Ohio EPA, and Mr. Brown and Mr. Fitch represented Grease Monkey. The complaint stated used oil had run down drains and into the grass.

During our investigation, we did note that some liquid had pooled in the pit area. We discussed with Mr. Fitch how that was typically handled and did not find that the material had been mishandled. We also inspected the exterior of the building, the ditch area along the site and the oil-water separator. No sheens were seen near the building nor oil-water separator. Some small sheens were noted near the two driveways at the road, but it appeared to be from general parking lot run-off. Rain was falling periodically during that morning.

Violation

I found the following violation of the Ohio's used oil regulations:

**Used Oil Label
OAC 3745-279-22(C)(1)**

Containers and aboveground tanks used to store used oil at generator facilities must be labeled or marked clearly with the words "Used Oil".

Mr. Paul Twedt, Owner
March 23, 2007
Page 2

The two 250-gallon used oil totes at Grease Monkey were not labeled with the words "Used Oil", in violation of OAC 3745-279-22(C)(1).

- ▶ Grease Monkey must label the two totes used to store used oil with the words "Used Oil". Do this by March 30, 2007.

Please notify me when the above violation has been corrected. If you have any questions about this letter or the complaint investigation, please contact me at (937) 285-6080.

Sincerely,

~~Debora Roth~~
