**RE: COMPLIANCE EVALUATION INSPECTION - Veolia ES Technical Solutions,  
L.L.C., Return to Compliance**

Dear Mr. Hannah:

Thank you for your February 18, 2011 response to Ohio EPA's January 13, 2011 Notice of Violation letter. The documentation you submitted included a copy of the hazardous waste manifest demonstrating the container stored in excess of 365 days at your West Carrollton Facility has been shipped off site for disposal.

My review of this documentation and my March 17, 2011 inspection reveal that Veolia ES Technical Solutions, L.L.C. has now abated the violation of permit condition C.4 which was self reported on January 11, 2011.

Should you have any questions, please feel free to contact me at (937) 281-6083.

Sincerely,

Brian Marlatt  
Environmental Specialist  
Division of Hazardous Waste Management

Cessation of Regulations Operations  
Notice of Violation/Return to Compliance

Mr. Nick Post, President  
Whyco Dayton, LLC  
18074 Sherwood Street  
Detroit, Michigan 48234

Dear Mr. Post:

On January 30, 2009 Tom Koch and I of the Ohio EPA Division of Hazardous Waste Management met with Ken Vitale and Bryan Bruce to conduct an inspection of the Whyco Dayton facility (formerly Metprotech, Inc., and Mayo Plating) located at 1801 Home Avenue, Dayton, Ohio 45417. On February 19, 2009, a second inspection with Mr. Vitale and Mr. Bruce was conducted by myself. The Whyco Dayton facility was inspected determine its compliance with Ohio's Cessation of Regulated Operations (CRO) laws as found under Chapter 3752 of the Ohio Revised Code (ORC) and Chapter 3745-352 of the Ohio Administrative Code (OAC). The CRO program is a set of laws designed to prevent companies from abandoning facilities where regulated substances were used, stored, or treated. The laws require the responsible parties to secure these facilities until all regulated substances are removed. The inspections included a complete walk-through of the entire facility and the inspection of all remaining stationary items. The following violations of Ohio's CRO laws were found.

**1. Duties of the Owner/Operator within 90 Days of Cessation (ORC §3752.06 (A)(4) and OAC Rule 3745-352-20 (A)(2)(d)):**

Within 90 days of ceasing regulated operations, you must remove from the facility all regulated substances and all debris, nonstationary equipment and furnishings, nonstationary containers, and motor vehicles and rolling stock that contain or "contaminated with" regulated substances, as defined in OAC Rule 3745-352-05.

Whyco Dayton was the owner/operator at the time regulated operation ceased. According to our records, Whyco Dayton ceased regulated operation on June 20, 2008. Whyco Dayton was responsible for removing all regulated substances by September 18, 2008. Whyco Dayton has failed to remove all regulated substances at the facility within 90 days of ceasing regulated operations. At the time of the January 30, 2009 inspection, containers of chemicals which included

but was not limited to a five gallon bucket of interior paint; various cleaning solutions, propane cylinders, acetylene cylinder, lithium multi-purpose grease, floor stripper, degreasers, cutting oil and a hazardous waste roll-off were located throughout the facility.

During the February 19, 2009 inspection, all regulated substances identified during the initial inspection were transferred, sold or disposed as required by ORC 3752.06.

Documentation for each of these methods was provided by Ken Vitale during the February 19, 2009 inspection. **Therefore, Whyco Dayton is no longer in violation of ORC §3752.06 (A)(4) and OAC Rule 3745-352-20 (A)(2)(d).**

**2. Duties of the Owner/Operator within 90 Days of Cessation  
(ORC §3752.06 (A)(6) and OAC Rule 3745-352-20 (A)(2)(g)):**

Within 90 days of ceasing regulated operations, you must certify to the Ohio EPA that you have complied with paragraphs (A)(2)(c) and (A)(2)(f) of OAC Rule 3745-352-20 using form EPA 0329, "Ohio EPA Cessation of Regulated Operations Program, Regulated Substance & Equipment Removal (90 Day-Final Form)."

Whyco Dayton was the owner/operator at the time regulated operation ceased. By September 18, 2008, Whyco Dayton was responsible for certifying to Ohio EPA that it had complied with paragraphs (A)(2)(c) and (A)(2)(f) of OAC Rule 3745-352-20 using form EPA 0329. On January 23, 2009, Ohio EPA received a copy via e-mail of form EPA 0329 from Mr. Vitale.

A revised form EPA 0329 was received from you on February 20, 2009 **Therefore, Whyco Dayton is no longer in violation of ORC §3752.06 (A)(6) and OAC Rule 3745-352-20 (A)(2)(g).**

The documentation submitted by Mr. Vitale on February 19, 2009 and from you on February 20, 2009 reveals that Whyco Dayton has adequately demonstrated abatement of all violations during Ohio EPA's January 30, 2009 and February 19, 2009 inspections. Therefore, Whyco Dayton has satisfactorily completed the CRO regulatory process for its Dayton, Ohio facility. As a notifier of regulated waste activity, please send a letter, on your company's letterhead, requesting to deactivate the existing U.S. EPA Identification Number (OHD 175 610 443) for the Whyco Dayton facility, once it is no longer needed. Please send the letter to Kristina Durnell in our Central Office at Ohio EPA, Lazarus Government Center, 50 West Town Street, P. O. Box 1049, Columbus, Ohio 43216-1049. If you have additional questions regarding your EPA ID Number,

then please refer to the instructions which can be found online at:
