**Re: 2007 Hazardous Waste Annual Report Requirement  
MERIDIAN AUTOMOTIVE SYSTEMS INC, JACKSON - OHD000817379**

Dear KEVIN J O'DAY:

My review of customer data from Ohio Treatment, Storage, and Disposal Facilities (TSDFs) has revealed that one or more shipments of hazardous waste were received from MERIDIAN AUTOMOTIVE SYSTEMS INC during the 2007 calendar year. The total amount reported is approximately 31.78 tons as shown on the enclosed printout. This total indicates that MERIDIAN AUTOMOTIVE SYSTEMS INC was a large quantity generator in 2007. Because I have not received a Hazardous Waste Annual Report for 2007, MERIDIAN AUTOMOTIVE SYSTEMS INC may be in violation of Rule 3745-52-41 of the Ohio Administrative Code (OAC).

A large quantity generator is defined as a site which generates in any single month more than 1000 kg (2200 lbs) of non-acute hazardous waste or more than 1 kg (2.2 lb) of acutely hazardous waste. This includes wastes from one-time generation as well as wastes from ongoing production processes. It may take only one month of generating above the threshold quantity to subject a site to the Annual Report requirement. The generator is responsible for contacting Ohio EPA in order to obtain the reporting forms.

OAC Rule 3745-52-41 requires a generator who ships any hazardous waste off-site to prepare and submit to the Ohio EPA an **Annual Hazardous Waste Report** and to describe and certify efforts that were made to minimize hazardous wastes. These reports are due March 1 of each year and contain information about the activities of the previous calendar year. Only small quantity generators (between 220 and 2200 lb/mo of non-acutely hazardous wastes) and conditionally exempt small quantity generators (less than 220 lb/mo of non-acutely hazardous wastes) are exempt from the Annual Report requirement as described in OAC Rule 3745-52-44.

To abate the violation of OAC Rule 3745-52-41, MERIDIAN AUTOMOTIVE SYSTEMS INC must complete and submit to Ohio EPA a 2007 Annual Hazardous Waste Report within 30 days of receipt of this letter. Failure to respond to this Notice of Violation may result in referral to the Compliance Assurance Section for consideration of escalated enforcement. You may access the reporting forms and instructions on our website at [http://www.epa.state.oh.us/dhwm/ann\\_report.html](http://www.epa.state.oh.us/dhwm/ann_report.html).

MERIDIAN AUTOMOTIVE SYSTEMS INC should have on file the manifest records necessary for completion of the reports. OAC Rule 3745-52-40 requires generators to keep a signed copy

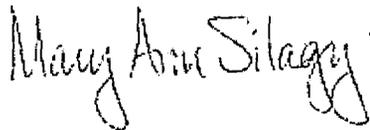

Ted Strickland, Governor  
Lee Fisher, Lieutenant Governor  
Chris Korleski, Director

of each manifest for a period of at least three years from the date the waste was accepted by the initial transporter. Receiving facilities and transporters are under a similar requirement. If you need copies of the original manifest(s), contact them for assistance.

If MERIDIAN AUTOMOTIVE SYSTEMS INC was not a large quantity generator in 2007, documentation must be submitted to this office within 30 days of receipt of this letter. This documentation must show that MERIDIAN AUTOMOTIVE SYSTEMS INC did not generate more than the threshold quantity of hazardous waste in any month during 2007. If you believe that the information supplied by Ohio TSDFs is in error, please call me to discuss the discrepancy.

A letter that acknowledges receipt of the report will be sent to you after it is processed. I can answer questions concerning the Annual Report at (614) 644-2891. Your prompt attention to this matter is appreciated.

Sincerely,

Re: 2007 Hazardous Waste Annual Report Requirement  
TOLEDO EDISON LAKEWOOD SERVICE CENTER, NORTHWOOD – OHD000821363

Dear Timothy J Kreft:

My review of customer data from Ohio Treatment, Storage, and Disposal Facilities (TSDFs) and manifest data from Michigan's Department of Environmental Quality has revealed that one or more shipments of hazardous waste were received from the Toledo Edison Lakewood Service Center during the 2007 calendar year. The amounts reported, 0.62 tons and 14.80 tons respectively for a total of 15.42 tons, indicate that this site was a large quantity generator in 2007. Enclosed are printouts of the shipment information. Because I have not received a Hazardous Waste Annual Report for 2007, Toledo Edison Lakewood Service Center may be in violation of Rule 3745-52-41 of the Ohio Administrative Code (OAC).

A large quantity generator is defined as a site which generates in any single month more than 1000 kg (2200 lbs) of non-acute hazardous waste or more than 1 kg (2.2 lb) of acutely hazardous waste. This includes wastes from one-time generation as well as wastes from ongoing production processes. It may take only one month of generating above the threshold quantity to subject a site to the Annual Report requirement. The generator is responsible for contacting Ohio EPA in order to obtain the reporting forms.

OAC Rule 3745-52-41 requires a generator who ships any hazardous waste off-site to prepare and submit to the Ohio EPA an **Annual Hazardous Waste Report** and to describe and certify efforts that were made to minimize hazardous wastes. These reports are due March 1 of each year and contain information about the activities of the previous calendar year. Only small quantity generators (between 220 and 2200 lb/mo of non-acutely hazardous wastes) and conditionally exempt small quantity generators (less than 220 lb/mo of non-acutely hazardous wastes) are exempt from the Annual Report requirement as described in OAC Rule 3745-52-44.

To abate the violation of OAC Rule 3745-52-41, Toledo Edison Lakewood Service Center must complete and submit to Ohio EPA a 2007 Annual Hazardous Waste Report within 30 days of receipt of this letter. Failure to respond to this Notice of Violation may result in referral to the Compliance Assurance Section for consideration of escalated enforcement. The

Ted Strickland, Governor  
Lee Fisher, Lieutenant Governor  
Chris Korleski, Director

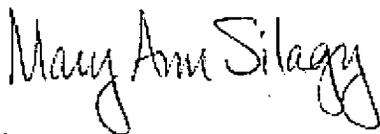

reporting forms and instructions are on our Web site at  
[http://www.epa.state.oh.us/dhwm/ann\\_report.html](http://www.epa.state.oh.us/dhwm/ann_report.html).

Toledo Edison Lakewood Service Center should have on file the manifest records necessary for completion of the reports. OAC Rule 3745-52-40 requires generators to keep a signed copy of each manifest for a period of at least three years from the date the waste was accepted by the initial transporter. Receiving facilities and transporters are under a similar requirement; if you need copies of the original manifest(s), contact them for assistance.

If Toledo Edison Lakewood Service Center was not a large quantity generator in 2007, documentation must be submitted to this office within 30 days of receipt of this letter. This documentation must show that Toledo Edison Lakewood Service Center did not generate more than the threshold quantity of hazardous waste in any month during 2007. If you believe that the information supplied by Ohio TSDs or MI DEQ is in error, please call me to discuss the discrepancy.

A letter that acknowledges receipt of the report will be sent to you after it is processed. I can answer questions concerning the Annual Report at (614) 644-2891. Your prompt attention to this matter is appreciated.
