Dear Ms. Vilardo:

I am in receipt of Glidden Company Research Center's (Glidden) April 2, 2007 letter. The letter and attachments were submitted in response to Ohio EPA's March 6, 2007 notice of violation letter for the violations noted during the February 8, 2007 compliance evaluation inspection. The letter and attachments were received via email on April 2, 2007 and by mail on April 4, 2007.

Glidden's response has adequately addressed the violations and concerns noted during the February 8, 2007 inspection. Based on my review of the documentation submitted, Glidden has returned to compliance with all the violations cited in the notice of violation letter.

1. Ohio Administrative Code (OAC) 3745-52-42; Exception report.
2. OAC 3745-270-07(A)(2); Land disposal restriction testing (LDR), tracking and record keeping requirements for generators.
3. OAC 3745-279-22(C); Standards for used oil generators, labeling of containers.
4. OAC 3745-273-13(D)(1); Standards for universal waste lamps, failure to store lamps in a closed container.
5. OAC 3745-273-14(E); Standards for universal waste lamps, failure to label used lamp containers.
6. OAC 3745-273-16; Standards for universal waste, failure to train employees who handle universal waste.
7. OAC 3745-273-15(C); Standards for universal waste, demonstration for length of accumulation.

No further action is required by Glidden. Should you have any question please contact me at (330) 963-1162.

Sincerely,

Marlene M. Kinney
