Vice President
Anodizing Specialists, Inc.

Dear Mr. Pecjak,

On March 3, 2010, the Ohio Environmental Protection Agency (EPA), Division of Hazardous Waste Management (DHWM), conducted a compliance evaluation inspection at Anodizing Specialists, Inc., located at 7547 Tyler Blvd., Mentor, Ohio. The purpose of the inspection was to determine Anodizing Specialists' compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). Anodizing Specialists was represented by David Pecjak and you. The Ohio EPA was represented by Robert Almquist and me.

Anodizing Specialists does sulfuric acid anodizing on aluminum parts. Wastewater is treated in a pre-treatment tank where the pH is adjusted prior to discharge to the sewer. This process does not generate a wastewater treatment sludge.

Some parts are dyed after anodizing. The majority of dyes used are organic dyes or metal free dyes. Anodizing Specialists does some conversion coating. Very little is done using hexavalent chromium, some is done using trivalent chrome and most of the conversion coating is chrome free.

An aluminum hydroxide sludge is generated from the etch tank and is shipped off site as a non-hazardous, non-regulated material. Spent fluorescent lamps are sent to a bulb recycler. The only hazardous waste stream generated by Anodizing Specialists is spent acetone (D001, D035, F003, F005) generated from removing masking from parts. You generate less than 25 gallons in a month of spent acetone making Anodizing Specialist a conditionally exempt small quantity generator (CESQG) of hazardous waste.

I have enclosed copies of the inspection checklists for your records and copies of the photographs that I took. The following violation was noted:

1. **Ohio Administrative Code (OAC) 3745-273-14(E); Standards for universal waste lamps, failure to label containers or packages of lamps with the words "Universal Waste -Lamps" or "Used Lamps" or "Spent Lamps".**

Four cardboard boxes containing universal waste lamps were not labeled. This violation was abated during the inspection when the boxes were labeled with the words spent lamps. **No further information is requested.**

Ohio EPA's failure to list specific deficiencies or violations in this letter does not relieve your company from having to comply with all applicable regulations.
