**RE: BENSON TRUCKING, ASHTABULA COUNTY, COMPLAINT #7195, NOTICE OF VIOLATION/RETURN TO COMPLIANCE**

Dear Mr. Benson:

*John Palmer*

On February 5, 2009, the Ohio EPA, represented by Ed D'Amato and ~~Robert Atmquist~~, conducted a complaint inspection at Benson Trucking in Niles, Ohio. The complaint alleged that Benson Trucking is not properly managing used oil.

Benson Trucking primarily recycles used oil by mixing it with diesel fuel and using it as transportation fuel for its trucks. Some has been saved in 55-gallon drums which are stored behind your shop.

No evidence was found to substantiate the allegation, however one violation was noted:

**1. Used Oil Storage Requirements for Generators (Labels)  
OAC 3745-279-22(C)**

*Containers and above ground tanks used to store used oil at generator facilities shall be labeled or marked clearly with the words "Used Oil"*

There were several drums of used oil behind your shop that were not labeled per this rule. This violation was corrected at the time of the inspection when you properly labeled the drums.

You explained that you are considering the purchase of a used oil fired space heater. If you decide to purchase one, please contact Ed Fasko, Ohio EPA's Division of Air Pollution Control (DAPC) to discuss whether or not your space heater may require a permit. As we discussed, Adrienne LaFavre, Office of Compliance Assistance and Pollution Prevention, can also provide assistance. Both can be reached by calling (330) 963-1200.

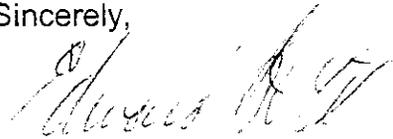

Enclosed is a copy of the checklist used for the inspection.

No response to this letter is required.

Failure to list specific deficiencies in this communication does not relieve Benson Trucking from the responsibility of complying with all applicable Ohio EPA laws and regulations. Please be advised that present or past instances of non-compliance can continue as subjects of pending or future enforcement actions.

Please feel free to contact me at (330) 963-1170 if you have any questions about the inspection or this letter.

Sincerely,

Edward J. D'Amato  
Environmental Specialist  
Division of Hazardous Waste Management

**USED OIL INSPECTION CHECKLIST  
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

*NOTE: A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.*

*Benson Trucking*

**PROHIBITIONS**

1. Does the generator manage used oil in a surface impoundment or waste pile? If yes: Yes  No  N/A
- a. Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)] Yes  No  N/A
2. Is used oil used as a dust suppressant? [3745-279-12(B)] Yes  No  N/A
3. Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)? Yes  No  N/A

*NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).*

**GENERATOR STANDARDS**

4. Does the generator mix hazardous waste with used oil? If so, Yes  No  N/A
- a. Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)] Yes  No  N/A

*NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.*

5. Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)] Yes  No  N/A

*NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.*

6. Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)] Yes  No  N/A
7. Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)] Yes  No  N/A
8. Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil"? [3745-279-22(C)] Yes  No  N/A

*Connected at time of inspection*

9. Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]
- a. Stopped the release? Yes  No  N/A
- b. Contained the release? Yes  No  N/A
- c. Cleaned up and properly managed the used oil and other materials? Yes  No  N/A
- d. Repaired or replaced the containers or tanks prior to returning them to service, if necessary? Yes  No  N/A

**ON-SITE BURNING IN SPACE HEATER**

10. Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so: Yes  No  N/A
- a. Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators? Yes  No  N/A
- b. Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour? Yes  No  N/A
- c. Are the combustion gases from heater vented to the ambient air? Yes  No  N/A

**GENERATOR TRANSPORTATION**

11. If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24] Yes  No  N/A
- a. Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator?[3745-279-24] Yes  No  N/A
- b. Does the generator transport more than 55 gallons of used oil at any time?[3745-279-24] Yes  No  N/A

*NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).*

**COLLECTION CENTERS AND AGGREGATION POINTS**

12. Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30] Yes  No  N/A
13. Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31] Yes  No  N/A
14. Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32] Yes  No  N/A

*NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.*
