Peter Wills
Bevcorp LLC
4711 E. 355th St.
Willoughby, OH 44094

Dear Mr. Wills:

On September 27, 2010, I met with you at Bevcorp located at 4711 E. 355th Street, Willoughby, Ohio. You also gave me a letter dated September 27, 2010 that was a response to my August 30, 2010 letter which dealt with my August 2010 inspection. As outlined below Bevcorp has corrected all the violations found during that inspection.

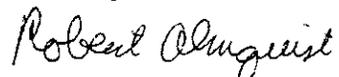

1. OAC rule 3745-52-11 – Hazardous waste determination.
You provided a copy of the analysis of a sample of the blasting waste. It showed 0.249 mg/l of barium (well below the 100 mg/l hazardous waste level), 1.96 mg/l of lead (below the 5 mg/l hazardous waste level), and 0.16 mg/l of selenium (below the 1 mg/l hazardous waste level). This documents your correction of this violation.
2. OAC rule 3745-65-33 – Testing and maintenance of equipment.
You provided a copy of recent emergency equipment inspection logs. This documents your correction of this violation.
3. OAC 3745-52-34(C)(1)(a) – Satellite accumulation area.
Previously corrected.
4. OAC 3745-52-34(C)(1)(b) – Satellite accumulation area.
Previously corrected.
5. OAC rule 3745-66-74 – Inspections of container storage areas.
You provided a copy of inspection logs. This documents your correction of this violation.
6. OAC rule 3745-279-22(D) - Response to releases of used oil.
I saw on September 27, 2010 that this area had been cleaned up which documents your correction of this violation.

You can find copies of the regulations and other information on the Division of Hazardous Waste Management web page at <http://epa.ohio.gov/dhwm>.
