RE: CABLELINE AUTO RECYCLING
COMPLAINT # 7353
PORTAGE COUNTY
CESQG, NOV

Mr. Terry Tomer
3115 State Rt. 14
Rootstown, OH 44272

Dear Mr. Tomer:

On September 20, 2010, Ed D'Amato and I of the Ohio EPA Division of Hazardous Waste Management conducted a hazardous waste complaint investigation at your business located at 9755 Cable Line Road, Diamond, Ohio. The purpose of the visit was to investigate a complaint received by Ohio EPA. Cableline Auto was represented by Jeff, the manager. Later on during the investigation I talked to you on the telephone to discuss our findings.

Cableline Auto Recycling (Cableline) is an auto salvage and parts business. The complaint alleged that Cableline discharges air conditioning fluid into the air, dumps oil, gas and antifreeze onto the ground and does not drain fluids from cars prior to crushing them. The complaint also alleged that there are open containers on the property and mentioned that there is a stream that runs along the property that could be contaminated.

We walked throughout the salvage yard looking for open containers and areas of dumping. Jeff showed us where the stream mentioned in the complaint is located. At the time of this investigation the stream was dry and overgrown with vegetation. We did not see any areas of the property where it appeared that fluids were being purposely dumped onto the ground. We were unable to substantiate the complaint.

We did note, however, three areas of heavily stained soil and some puddles of water with oil sheen on them. The areas of stained soil are located in the tear down area, the old tear down area, and the area across from the office where the used oil tank and diesel fuel tank are located. We also noted batteries which we were told are sent off for recycling on a weekly basis. Antifreeze is drained from vehicles and used in Cableline's equipment.

To document that the lead-acid batteries that are being recycled, please submit a copy of the paperwork that verifies that batteries are being recycled.

I have enclosed copies of the inspection checklists used for this investigation and copies of the pictures that I took. The following violations of the used oil rules were noted:

- 1. Ohio Administrative Code (OAC) 3745-279-22(C)(1); Containers and above ground tanks that are used to store used oil must be labeled with the words, "Used Oil".**

Three totes containing used oil were not labeled "used oil" as required by this rule. The totes were labeled at the time of the inspection, thus abating the violation. No further action is required by you.

2. OAC 3745-279-22(D); Generator must respond to used oil releases and perform cleanup steps.

We observed 3 areas of soil/gravel that were heavily stained with used oil and several puddles with oil sheen on them.

OAC rule 3745-279-22(D) requires that a generator of used oil, upon detection of a release of used oil, must stop the release, contain the release, and clean up and properly manage the used oil and other materials generated during clean up.

As we discussed during the site visit, contaminated soil and debris from the clean up may be managed as solid waste in a trash dumpster, provided that this is acceptable to your trash hauler.

Ohio EPA uses a visual standard when determining whether a cleanup of released used oil and any media absorbing that used oil is adequate. Ohio EPA does not require confirmatory soil sampling and analysis to demonstrate that the release has been cleaned up.

To return to compliance with this violation you must:

- a. clean up and remove all releases of used oil and contaminated soils identified by me and any additional releases you may find,
- b. contain all used oil in a closed container that is in good condition and labeled with the words used oil; and
- c. Provide photos of the areas before and after clean up.

The puddles with oil sheen can be cleaned up by throwing spill dry or peat in them and then shoveling the absorbent mixture into the dumpster for disposal.

3. OAC 3745-279-74(B)(1-4); The generator, transporter, processor/re-refiner, or burner who first claims that the used oil meets the fuel specifications under rule 3745-279-11 must keep a record of each shipment of used oil to an on-spec used oil burner.

When asked how Cableline manages its used oil, I was told that it is sold to local people to burn in their used oil burners. I discussed with you how that Cableline must stop selling its used oil unless you wish to become a used oil marketer. You stated that you didn't want to become a used oil marketer and you will stop selling your used oil. The used oil must be transported off site by an authorized used oil transporter, or, if you choose to install a used oil burner to heat the facility's office, you may burn your own used oil. Please note that the used oil burner must have a heating capacity of 500,000 BTU/hr or less and be vented to the outside.

To abate this violation, please respond in writing with a narrative describing how Cableline will begin managing its used oil.

CABLELINE AUTO RECYCLING

OCTOBER 14, 2010

PAGE – 3 –

I have enclosed the following fact sheets for you:

1. The Regulation of Used Oil: An Overview for Businesses Who Generate Used Oil
2. Burning Used oil in a Space Heater-For Businesses
3. Lead-Acid Batteries Must Be Recycled

If you have any questions you have regarding the requirements for installing and using a used oil burner, please contact Ms. Adrienne LaFavre at (330) 963-1250. Adrienne is the district contact for the Office of Compliance Assistance and Pollution Prevention. The Office of Compliance Assistance and Pollution Prevention is a non-regulatory program that provides information and resources to help small businesses comply with environmental regulations.

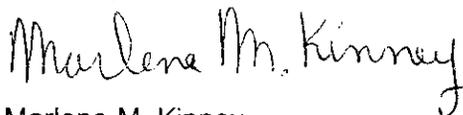

Please respond in writing within 30 days of the date on this letter.

Failure to list specific deficiencies and or violations in this communication does not relieve you from the responsibility of complying with all applicable laws, rules and regulations.

You can find copies of the rules and other information on the division's web page at <http://www.epa.ohio.gov>

Should you have any questions, please feel free to call me at (330) 963-1162 or email me at marlene.kinney@epa.state.oh.us.

Sincerely,

Marlene M. Kinney
Environmental Specialist
Division of Hazardous Waste Management

---	---	---

Comments:
Facility is a non-generator of hazardous waste. Complaint investigation #7353. 3 used oil violations cited.

USED OIL INSPECTION CHECKLIST - MARKETERS

NOTE: A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

PROHIBITIONS

1.	Does the Used Oil Marketer manage used oil in a surface impoundment or waste pile? If yes:	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
	a. Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>

NOTE: For example, scrap metal contaminated with used oil or used oil managed in a surface impoundment (i.e., pond).

2.	Is used oil used as a dust suppressant? [3745-279-12(B)]	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
3.	Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>

NOTE: All used oil burned for energy recovery is presumed to be off-specification until all requirements of OAC rule 3745-279-11 have been met.

NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., If generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

4.	Does the used oil fuel marketer initiate shipments of off-spec used oil only to a used oil burner that has a U.S. EPA ID# and burns the used oil in an industrial furnace or boiler identified in 3745-279-61(A)? [3745-279-71]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
5.	Does the generator, transporter, processor/re-refiner, or burner who first claims that the used oil meets the specification for used oil fuel under 3745-279-11 keep copies of analyses of the used oil (or other information used to make the determination) for at least three years? [3745-279-72(B)]	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input checked="" type="checkbox"/>
6.	Has the used oil marketer notified Ohio EPA or U.S. EPA and obtained a U.S. EPA ID#? [3745-279-73(A)]	Yes <input checked="" type="checkbox"/>	No <input type="checkbox"/>	N/A <input type="checkbox"/>
7.	Does the used oil marketer keep a record of each shipment of off-spec used oil directed to a used oil burner? [3745-279-74(A)]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	a. Does each record include the name and address of the transporter who delivers the used oil to the burner? [3745-279-74(A)(1)]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	b. Does each record include the name and address of the burner who receives the oil? [3745-279-74(A)(2)]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	c. Does each record include the U.S. EPA ID# of the transporter that delivers the used oil to the burner? [3745-279-74(A)(3)]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	d. Does each record include the U.S. EPA ID# of the burner? [3745-279-74(A)(4)]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	e. Does each record include the quantity of the used oil shipped? [3745-279-74(A)(5)]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
	f. Does each record include the date of shipment? [3745-279-74(A)(6)]	Yes <input type="checkbox"/>	No <input type="checkbox"/>	N/A <input checked="" type="checkbox"/>
8.	Does the generator, transporter, processor/re-refiner, or burner who first claims that the used oil meets the fuel specifications under 3745-279-11 keep a record of each shipment of used oil to an on-spec used oil burner? [3745-279-74(B)]	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
	a. Does each record include the name and address of the facility receiving the shipment? [3745-279-74(B)(1)]	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
	b. Does each record include quantity of used oil fuel delivered? [3745-279-74(B)(2)]	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
	c. Does each record include date of shipment or delivery? [3745-279-74(B)(3)]	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>
	d. Does each record include a cross-reference to the record of used oil	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>	N/A <input type="checkbox"/>

[Facility Name/Inspection Date]

[ID Number]

Used Oil Checklist for Marketers/June 2008

	analysis or other information used to make the determination that the used oil meets the specification as required in 3745-279-72(A)? [3745-279-74(B)(4)]						
9.	Are the records described in 3745-279-74(A) and (B) maintained for at least three years? [3745-279-74(C)]	Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>
10.	Before the used oil generator, transporter or processor/re-refiner directs the first shipment of off-spec used oil to a burner, does he obtain a one time written and signed notice from the burner certifying that:	Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>
	a. The burner has notified Ohio EPA stating the location and general description of the used oil management activities? [3745-279-75(A)(1)]	Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>
	b. The burner will burn the off-spec used oil only in an industrial furnace or boiler identified in 3745-279-61(A)? [3745-279-75(A)(2)]	Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>
11.	Is the certification maintained for at least three years from the date the last shipment of off-spec used oil was shipped to the burner? [3745-279-75(B)]	Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>	N/A	<input checked="" type="checkbox"/>

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at: https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.

PROHIBITIONS

1. Does the generator manage used oil in a surface impoundment or waste pile? If yes: Yes No N/A

a. Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)] Yes No N/A

NOTE: For example, used oil contaminated scrap metal stored in a pile.

2. Is used oil used as a dust suppressant? [3745-279-12(B)] Yes No N/A

3. Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)? Yes No N/A

NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

GENERATOR STANDARDS

4. Does the generator mix hazardous waste with used oil? If so, Yes No N/A

a. Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)] Yes No N/A

NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5. Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)] Yes No N/A

NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6. Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)] Yes No N/A

7. Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)] Yes No N/A

8. Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)] Yes No N/A

9. Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)] Yes No N/A

a. Stopped the release? Yes No N/A

b. Contained the release? Yes No N/A

c. Cleaned up and properly managed the used oil and other materials? Yes No N/A

d. Repaired or replaced the containers or tanks prior to returning them to service, if necessary? Yes No N/A

[Facility Name/Inspection Date]
[ID Number]

ON-SITE BURNING IN SPACE HEATER		
10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	No
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Are the combustion gases from heater vented to the ambient air?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).</i>		
GENERATOR TRANSPORTATION		
11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
12.	If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]	
a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).</i>		
COLLECTION CENTERS AND AGGREGATION POINTS		
13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.</i>
