Dear Mr. Allyn:

On December 13, 2010, we received your letter dated December 13, 2010, which was in response to my November 29, 2010 notice of violation letter. These letters were concerning Ohio EPA's September 29, 2010 hazardous waste inspection. Your response included analytical information for your used oil/coolant, and a photo of a used oil label. It also indicated your used oil/coolant mixture is being recycled. The information submitted demonstrates that you have adequately addressed all of the violations previously cited. Thank you for your cooperation.

Should you have any questions related to this letter, please feel free to call me at (330) 963-1226.

Sincerely,

Sheryl K. Slone, P.E.  
Environmental Engineer  
Division of Hazardous Waste Management
