**RE: CITY OF YOUNGSTOWN SERVICE GARAGE, MAHONING COUNTY,
COMPLAINT #7462 NOTICE OF VIOLATION/RETURN TO COMPLIANCE**

Dear Mr. Glenellen:

On August 30, 2011, the Ohio EPA, represented by Edward D'Amato and Robert Almquist conducted a complaint inspection at the City of Youngstown's Service Garage located at 480 Martin Luther King Blvd.

The complaint alleged improper storage and disposal of paint waste, antifreeze, and used oil. You represented the City of Youngstown during the inspection.

The complaint was unfounded; however, the following violation and concern was found:

**1. Labeling of Used Oil Containers
OAC 3745-279- 22(C)**

Containers and above ground tanks used to store used oil at generator facilities shall be labeled or marked clearly with the words "Used Oil"

Three drums of used oil were not labeled per this rule. This violation was abated at the time of the inspection when a used oil label that I gave you was placed on the drums. No further action is required regarding this violation.

2. Concern #1: Management of Spent Universal Waste Lamps

You explained that spent fluorescent lamps are disposed with your solid waste. No lamps were observed in the facility solid waste dumpster at the time of the inspection. Often these lamps contain mercury at a level that make them a hazardous waste if disposed. This can also be true of mercury vapor, sodium vapor, and metal halide lamps.

If the spent lamps are sent for recycling instead of disposal, they would be exempt from the hazardous waste management requirements. Although Ohio EPA encourages recycling in any case, low-mercury lamps that are not considered hazardous waste when disposed are commercially available.

You explained that, from now on, you will recycle universal waste lamps generated by your facility.

During the inspection, you were given copies of the following Ohio EPA Fact Sheets:

1. The Regulation of Used Oil: An Overview for Ohio Businesses Who Generate Used Oil
2. The Regulation of Used Oil: Used Oil in Burners
3. Burning Used Oil in a Space Heater—For Businesses
4. Ohio's Universal Waste Rules: Are You Handling Your Used Lamps Correctly

You were also given a list of companies that accept universal waste lamps for recycling.

No response to this letter is required.

Enclosed is a copy of the checklist used for the inspection.

Failure to list specific deficiencies in this communication does not relieve the City of Youngstown from the responsibility of complying with all applicable Ohio EPA laws and regulations. Please be advised that present or past instances of non-compliance can continue as subjects of pending or future enforcement actions.

Please feel free to contact me at (330) 963-1170 if you have any questions.

Sincerely,

Edward J. D'Amato

A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.

2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations.
