RE: CLEVELAND AUTO WRECKING  
MAHONING COUNTY  
COMPLAINT #7167  
RETURN TO COMPLIANCE

Ed Kunzer  
Cleveland Auto Wrecking  
2700 Hubbard Rd.  
Youngstown, OH 44505

Dear Mr. Kunzer:

Thank you for your January 12, 2009 response to Ohio EPA's January 5, 2009 Notice of Violation. The documentation you submitted included the following:

1. Photographs showing that used oil releases in the vicinity of the "lay down area" had been cleaned up.
2. An explanation that used oil releases in the vicinity of the car crusher have been cleaned up. (no photographs of the area around the car crusher were submitted)
3. An explanation that PSC Metals does burn used oil in a space heater at the Cleveland Auto Wrecking location (Ohio EPA's checklist was incorrect on this point).

Ohio EPA has reviewed your documentation and determined that it is sufficient to abate the violations listed in the NOV:

1. **Used Oil Storage Requirements for Generators (Labels)**  
**OAC 3745-279-22(C)**
2. **Response to Releases of Used Oil**  
**OAC 3745-279-22(D)**

No response to this letter is required.

Failure to list specific deficiencies in this communication does not relieve Cleveland Auto Wrecking from the responsibility of complying with all applicable Ohio EPA laws and regulations. Please be advised that present or past instances of non-compliance can continue as subjects of pending or future enforcement actions.

Please feel free to contact me at (330) 963-1170 if you have any questions about the inspection or this letter.

Sincerely,

Edward J. D'Amato  
Environmental Specialist  
Division of Hazardous Waste Management
