Dear Mr. Tankovich:

Thank you for your May 5, 2011 response to Ohio EPA's April 1, 2011 Notice of Violation letter. The documentation you submitted included details of the hazardous waste training program and training program records; facility contingency plan; list of emergency equipment maintained at the facility and the associated inspection log; and photographic documentation demonstrating proper aisle spacing in the hazardous waste accumulation area.

My review of this documentation reveals that Diamond Hard Chrome has now abated all violations discovered during the March 17, 2011 inspection as listed below.
