SQG, USED OIL, UNIV. WASTE
NOV

Tony Guerini
Duracote Corporation
350 N. Diamond St.
Ravenna, OH 44266

Dear Mr. Guerini:

Ohio EPA conducted a hazardous waste inspection at Duracote Corporation on March 15, 2007. The purpose of the inspection was to evaluate Duracote's compliance with Ohio's hazardous waste laws as found in Chapter 3734. of the Ohio Revised Code (ORC) and Chapter 3745. of the Ohio Administrative Code (OAC). Sherry Slone and I represented Ohio EPA during the inspection. You represented Duracote.

During the inspection, Ohio EPA learned that Duracote coats fiberglass or polyester fabric for the automotive and airline industries. Duracote generates spent acetone (D001, F003) and spent isobutyl isobutyrate (D001) hazardous wastes. Duracote also generates used oil and spent batteries and bulbs. Although Duracote notified as a large quantity generator (LQG) of hazardous waste, it appears it is now operating as a small quantity generator (SQG). As such, Duracote was evaluated for compliance with the SQG rules.

Ohio EPA discovered the following violations of Ohio's hazardous waste, universal waste and used oil rules.

1. Waste Evaluation
OAC 3745-52-11

Duracote failed to evaluate a liquid in a parts washer that was no longer being used. On March 27, 2007, you sent an e-mail stating that the liquid was tested and found to have a flash point of 118°F. This is a hazardous waste and must be managed and disposed as a hazardous waste.

To abate this violation, Duracote needs to take a picture of the container holding this hazardous waste showing the proper hazardous waste label and accumulation date. Please be aware this waste must be properly sent off-site within 180 days of the date it became a waste.

2. Manifest
OAC 3745-52-20 (A)

Duracote shipped 1 (55 gallon) drum of hazardous waste (D001, F003) as a non-hazardous waste. Liberty Solvents, Inc. discovered the discrepancy and worked with Duracote to have the drum manifested to Chemtron on June 21, 2006.

This violation has been abated.

3. Retaining Manifest
OAC 3745-52-40

Duracote was unable to locate manifested number 05004 which showed 4 drums of solvent manifest to Chemical Solvents, Inc. on December 5, 2005.

Duracote obtained a copy of the manifest and faxed it to Ohio EPA on March 22, 2007.

This violation is abated.

4. Emergency Equipment
OAC 3745-65-33

Duracote failed to inspect its emergency equipment on a regular basis. The inspections need to be recorded in a log or summary.

To abate this violation, please send in a copy of the recorded log or summary from the most recent emergency equipment inspection.

5. Dating Hazardous Waste Containers
OAC 3745-52-34 (D)(4)

Duracote failed to label the accumulation date on 2 (55-gallon) drums of hazardous waste in the hazardous waste storage area.

This violation was abated during the inspection by Duracote adding the accumulation start date to the container.

6. Container Inspection
OAC 3745-66-74

Duracote failed to inspect areas where containers of hazardous waste are stored, at least weekly, for deterioration caused by corrosion or other factors. These inspections must be recorded in an inspection log or summary.

To abate this violation, please send in a completed log or summary that documents a weekly inspection of the hazardous waste accumulation and storage areas.

7. Used Oil
OAC 3745-279-22 C

Duracote failed to label 2 containers (1 drum and 1 pail) of used oil with the words "Used Oil."

This violation was abated during the inspection by Duracote adding the words "Used Oil" to the containers.

8. Containers of lamps
OAC 3745-273-13(D)(1)

Duracote failed to containerize spent lamps in a structurally sound and closed container.

To abate this violation, please containerize all spent lamps immediately and send in your new procedure on how these lamps will be managed in the future. The written procedure should address how the lamps will be containerized, labeled and dated, where they will be stored, who will be responsible for their management and where they will be recycled or disposed.

9. Labeling for Batteries
OAC 3745-273-14(A)

Duracote failed to label all batteries or containers of batteries with the words "Universal Waste - Batteries" or "Waste Batteries" or "Used Batteries".

To abate this violation, please label the batteries correctly and send in a picture of the labeled batteries.

10. Container labeling for lamps
OAC 3745-273-14(E)

Duracote failed to label all containers of spent lamps with the words "Universal Waste - Lamp(s)" or "Waste Lamp(s)" or "Used Lamp(s)."

To abate this violation, please label all containers of spent lamps immediately and send in procedural documentation (as described in #8) on how these lamps will be managed in the future.

11. Accumulation time for lamps
OAC 3745-273-15 C

Duracote failed to document the length of time the spent lamps have accumulated by one of the methods described in the above rule. To abate this violation, immediately document the accumulation time of the spent lamps and submit your new written procedure (as described in #8) for spent lamps management. In general, these universal waste can be accumulated for no longer than one year.

12. Employee Training
OAC 3745-52-34 (D)(5)C)

Because of all of the above violations, it appears not all employees are thoroughly familiar with proper waste handling relevant to their responsibilities. Please describe in writing what training has been provided or steps taken to adequately insure employees are familiar with proper waste handling in order to prevent future violations of the hazardous waste rules.

DURACOTE CORPORATION
APRIL 5, 2007
PAGE - 4 -

Ohio EPA noticed Duracote manifesting its hazardous waste with the following hazardous waste codes (D001, D035, F003, F005). The D035 and F005 waste codes indicates Duracote uses a Methyl Ethyl Ketone solvent in their cleaning operations. Ohio EPA did not observe Duracote using this solvent. Duracote should re-evaluate their hazardous waste to determine the correct waste codes.

Please submit the requested documentation demonstrating abatement of all violations within 30 days of the date on this letter.
