CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Dear Mr. Chuma:

Thank you for your February 2, 2009 response to Ohio EPA's January 5, 2009 Notice of Violation (NOV) letter. You submitted information and documentation, including:

- Two (2) photographs demonstrating that the containers of used oil have been labeled with the words "Used Oil".
- Three (3) photographs demonstrating that Universal Waste lamps generated by the facility are being managed in containers, which are being kept closed, labeled appropriately and dated in order to track how long the spent lamps have been on-site.
- A copy of the facility's protocol for the proper management of universal waste lamps, signed by the maintenance supervisor demonstrating that he has read the said protocol.

My review of this documentation reveals that EZ Machine has adequately demonstrated abatement of the following hazardous waste violations cited in Ohio EPA's NOV letter and is hereby returned to compliance:

- OAC Rule 279-22(C)(1) Used oil requirements for generators**
- OAC 3745-273-13(D)(1) Universal Waste Lamp Management**
- OAC 3745-273-14(E) Labeling/marketing of Universal Waste**
- OAC 3745-273-15(C) Accumulation time limits for Universal Waste**
- OAC 3745-273-16 Employee Training for Small Quantity handlers of Universal Waste**

Failure to list specific deficiencies in this communication does not relieve EZ Machine from the responsibility of complying with all applicable hazardous waste regulations. This letter does not relieve EZ Machine from liability for any past or present violations of the state's hazardous waste laws.

Should you have any questions, please feel free to call me at (330) 963-1181.

Sincerely,

Suzanne Prusnek
