Corporate Safety Manager  
Molded Fiber Glass Companies  
1925 MFG Place  
P.O. Box 675  
Ashtabula, OH 44005-0675

Dear Mr. Narducci:

Thank you for the correspondence from Alec Raffa and Kurt Butler dated March 30, 2009 and received on April 1, 2009 responding to Ohio EPA's NOV letter dated March 9, 2009.

MFG submitted documentation including: waste treatment documentation, hazardous waste manifests, training documentation, revised emergency coordinators in contingency plan and notification letter to director.

My review of this documentation indicates MFG has adequately demonstrated abatement of the violations from the February 5, 2009 inspection cited in my letter of March 9, 2009, specifically:

1. **OAC Rule 3745 52 34 (C)(2) Generator must mark date of excess accumulation on satellite accumulation container and within 3 days comply with 90 day accumulation standards.**
2. **ORC 3734.02(E) & (F) Facility must be permitted for treatment, storage, disposal.**

**MFG should be aware while no further action is being required by Ohio EPA with respect to this violation of ORC 3734.02(E) & (F) at this time, MFG remains subject to complete generator closure of this unit in accordance with the requirements of OAC rule 3745-52-34.**

3. **Personnel Training Program OAC 3745-65-16(C) Personnel must take part in an annual review of the initial training.**
4. **OAC 3745-54-55 An Emergency Coordinator Shall Be On Call Or On Premises At All Times**

MFG COMPOSITE SYSTEMS CO.  
APRIL 30, 2009  
PAGE - 2 -

5. **OAC 3745-270-09(D)(1)(a) Notification Must Include Name, Address Of Solid Waste Facility**  
**OAC 3745-270-09(D)(1)(b) Notification Must Include Description Of Waste Initially Generated**  
**OAC 3745-270-09(D)(2) Notification Must Be Signed By Authorized Representative**

Should you have any questions regarding this letter, please contact me at (330) 963-1165.

Sincerely,

Neil J. Wasilk  
Environmental Specialist  
Division of Hazardous Waste Management
