**RE: MIRMAT CNC MACHINING, INC.  
OHD 004 179 297  
RTC**

Miro Vujovic  
Mirmat CNC Machining, Inc.  
4550 Hamann Parkway  
Willoughby, OH 44094

Dear Mr. Vujovic:

On August 11, 2010, I met with you to conduct a follow-up inspection of Mirmat located at 4550 Hamann Pkwy., Willoughby, Ohio. This was a follow-up to my March 15, 2010 inspection. As outlined below, you have shown a correction of the violations found during the initial inspection.

1. OAC rule 3745-52-11 – Hazardous waste determination.

On August 11, 2010, you showed me your current storage of waste lamps in a loft in the air compressor room. You said these will be picked up by a lamp recycler when you have a sufficient quantity of them. I told you that these boxes need to be labeled as waste lamps and you said you would label them. This documents your correction of this violation.

2. OAC rule 3745-279-24 – Off-site shipments of used oil by generators.

You told me that waste Ultrasol 5780 coolant is normally only generated when a machine is repaired or sold. You said that when this occurs you will store the waste coolant in a drum and have the full drum picked up by a used oil hauler that has an EPA identification number. This documents your correction of this violation.

You can find copies of the regulations and other information on the Division of Hazardous Waste Management web page at <http://epa.ohio.gov/dhwm>.

If you have any questions, please contact me at (330) 963-1217, or [robert.almquist@epa.state.oh.us](mailto:robert.almquist@epa.state.oh.us).

Sincerely,

Robert Almquist  
Division of Hazardous Waste Management
