**RE: *NEWSOME & WORK METALLIZING, OHD 986 976 769, SUMMIT COUNTY, SQG-
CEI, NOTICE OF VIOLATION***

Dear Mr. Newsome:

On August 8, 2011, Ohio EPA's Division of Materials and Waste Management, represented by Edward D'Amato and Robert Almquist, inspected Newsome and Work Metallizing for compliance with Ohio hazardous waste laws and regulations found in Chapters 3734 of the Ohio Revised Code (ORC) and 3745 of the Ohio Administrative Code (OAC). Newsome and Work Metallizing was represented by you.

Newsome and Work Metallizing does abrasive blasting, painting, and zinc metallizing of carbon steel parts.

The following waste streams were identified:

- Paint waste (D001, F003, F005)
- Used Oil
- Spent sandblasting media (Black Beauty, ~80 tons per year)
- Universal waste lamps, recycled through Univar.

You explained that Newsome & Work uses a solvent still to recycle solvent/paint thinner. We were unable to inspect it because you said you were unable to find the key to the outbuilding in which it is located.

You also explained that Safety Kleen picks up your paint waste every couple of years, but you were unable to readily find disposal paperwork. Please submit any and all hazardous waste disposal paperwork for the past 3 years with your written response to this letter.

The following violations were found. To correct them, you must do the following and submit all requested information **within 30-days** of the date of this letter.

**1. Hazardous Waste Determination
OAC 3745-52-11**

Any person who generates a waste in the state of Ohio...shall determine if the waste is a hazardous waste...

- a. There were 3 blue drums (~15-20 gallons) labeled "Tectyl 506" along the east wall of the paint booth building. The drums were deteriorating and water from a leak in the roof was dripping on them. This material is not being stored in a manner consistent with it being a usable product and must be properly characterized and disposed. An online material safety data sheet (<http://www.gclubricants.com/msds/Tectyl506.pdf>) for the material suggests it has a flashpoint of 106 degrees Fahrenheit, suggesting it is a D001 hazardous waste. To correct this violation, you must properly dispose of this waste material and submit copies of the disposal paperwork to this office.
- b. There were several open 5-gallon cans of what appeared to be paint waste in the paint booths. To correct this violation, you must properly dispose of this material and submit copies of the paperwork to this office.

Please be advised that the open cans of paint waste and the fact that you were unable to find the key to the building with the solvent still suggest the possibility that you may not be recycling your spent solvent and instead are letting it evaporate. This may be considered illegal treatment of hazardous waste per section 3734.02 (E) and (F) of Ohio Revised Code, which can be enforced by either civil or criminal penalties, or both. If you wish to demonstrate that you are using a solvent still, please contact me to schedule a time to inspect it.

**2. Response to Releases of Used Oil
OAC 3745-279-22(D)**

Upon the detection of a release of used oil to the environment, a generator shall...clean up and manage properly the released used oil...

There were releases of used motor oil among the five, 55-gallon drums of used oil stored on the west side of your main building. To correct this violation, you must clean up the releases. You must document with photographs that this has been done, and you must submit the photographs to this office. As I explained during the inspection, you may use oil dry or other inert absorbent media to soak up the oil and dispose of it with your solid waste (regular trash).

**3. Used Oil Storage Requirements for Generators (Labels)
OAC 3745-279-22(C)**

Containers and above ground tanks used to store used oil at generator facilities shall be labeled or marked clearly with the words "Used Oil"

The five drums of used oil mentioned in violation #2 were not labeled per this rule. To correct this violation, you must label the containers of used oil, photograph them, and send copies of the photographs to this office. It is suggested that you dispose of or recycle the used oil through an Ohio EPA-registered used oil transporter and submit copies of the disposal paperwork to this office. During the inspection, you were provided with a list of registered used oil transporters in northeast Ohio.

**4. Universal Waste Management Standards—Containers
OAC 3745-273-13(D)**

A small quantity handler of universal waste must contain any lamp in containers or packages that are structurally sound, adequate to prevent breakage...such containers must be kept closed and must lack evidence of leakage, spillage or damage.

There were two spent fluorescent lamps that were not in a box or container. To address this violation, the lamps must be placed in a box/container that meets the requirements of this rule. In addition, the box must be labeled "Universal Waste-Lamp(s)", or "Waste Lamp(s)", or "Used Lamp(s)" per OAC 3745-273-14(E). You must photograph the labeled box containing the lamps and send it to this office.

In addition to the above violations, the following concerns were also noted:

5. You have been disposing of approximately 80 tons per year of sand blast media on your property. This may be considered improper disposal of solid waste.
6. Several scrap tires containing rainwater were observed on the west side of the main building (adjacent to the used oil containers). Please be advised that the water in scrap tires can breed mosquitos which can increase public health risks.

I am forwarding a copy of this letter to the Summit County General Health District for possible follow-up on these concerns.

You may be able to reduce operating costs with waste minimization/pollution prevention practices. The Ohio EPA offers pollution prevention assessments to help you decide which practices would benefit your operations. If you would like to have a pollution prevention assessment, or would like more information, please contact Ohio EPA's OCAPP office at (800) 329-7518. The OCAPP website at: <http://www.epa.ohio.gov/ocapp> is also a good source of information.

NEWSOME AND WORK METALLIZING
AUGUST 25, 2010
PAGE - 4 -

The Division of Hazardous Waste Management has created an electronic news service to provide timely updates on rule changes and other news related to hazardous waste in Ohio. We encourage you to sign-up for this free service at:

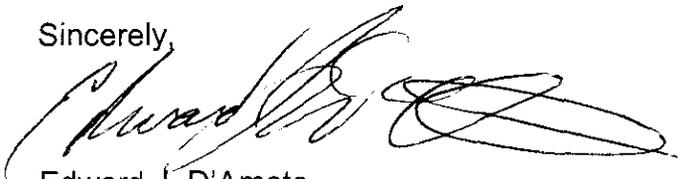

http://ohioepa.custhelp.com/cgi-bin/ohioepa.cfg/php/enduser/doc_serve.php?2=subscriptionpage

Enclosed is a copy of the checklists used for the inspection.

Please feel free to contact me at (330) 963-1170 if you have any questions.

Failure to list specific deficiencies or violations in this communication does not relieve Newsome and Work Metallizing from the responsibility of complying with all applicable Ohio EPA laws and regulations. Please be advised that present or past instances of non-compliance can continue as subjects of pending or future enforcement actions.

Sincerely,

Edward J. D'Amato
Environmental Specialist
Division of Materials and Waste Management

Eligible Academic Entities with Laboratories: Facility has previously notified that they are opting into managing laboratory hazardous waste pursuant to OAC rules 3745-52-200 through 3745-52-216. Check the box(es) below to indicate the laboratory type.

- College or University
 Teaching hospital that is owned by or has a formal written affiliation agreement with a college or university
 Non-profit Institute that is owned by or has a formal written affiliation agreement with a college or university

Waste Codes for Federally Regulated Hazardous Wastes. Please list the codes for the federally regulated hazardous waste handled at the site. List them in the order they are presented in the regulations (e.g., D001, D003, F007, U112). Use an additional page or list them in the comments if more space is needed. If the waste codes are the same as listed in the most recent RCRAInfo source record, you do not need to list them. Instead just indicate the date of the most recent source record.

D001 F003 F005

Comments:

**CONDITIONALLY EXEMPT SMALL QUANTITY GENERATOR REQUIREMENTS
COMPLETE AND ATTACH A PROCESS, WASTE, P2 SUMMARY SHEET**

CESQG: ≤100Kg. (Approximately 25-30 gallons) of waste in a calendar month or < 1 Kg. of acutely hazardous waste.
 SQG: Between 100 and 1,000 Kg. (About 25 to under 300 gallons) of waste in a calendar month.
 LQG: ≥ 1,000 Kg. (~300 gallons) of waste in a calendar month or ≥1 Kg. of acutely hazardous waste in a calendar month.
 NOTE: To convert from gallons to pounds: Amount in gallons x Specific Gravity x 8.345 = Amounts in pounds.

Safety Equipment Used:

WASTE EVALUATION

1.	Have all wastes generated at the facility been adequately evaluated? [3745-52-11]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

GENERATOR CLASSIFICATION

2.	Does the generator produce <100 kg. of hazardous waste per month? [conditionally exempt small quantity generator ("CESQG")]	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	--	--

NOTE: If quantities of hazardous waste accumulated on-site at any one time exceed 1,000 Kg. - or the generator produces between 100 and 1,000 Kg. of hazardous waste per month, it is operating as a Small Quantity Generator ("SQG"). If so, complete the Small Quantity Generator Requirements checklist.

OFF-SITE SHIPMENT OF HAZARDOUS WASTE

3.	Does the CESQG ensure delivery of hazardous waste(s) to an off-site permitted TSD? [3734.02(F)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
----	---	---

Not clear at time of inspection

TREATMENT OF HAZARDOUS WASTE

4.	Does the generator treat hazardous waste in a:	
a.	Container that meets 3745-66-70 to 3745-66-77? Container that meets 3745-66-70 to 3745-66-77?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Tank that meets 3745-66-90 to 3745-66-101 except 3745-66-97(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
c.	Drip pads that meet 3745-69-40 to 3745-69-45?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
d.	Containment building that meets 3745-256-100 to 3745-256-102?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Complete appropriate checklist for each unit.

NOTE: If the CESQG conducts treatment they are subject to the LQG requirements.

NOTE: If waste is treated to meet LDRs, use LDR checklist.

MIX HAZARDOUS WASTE WITH USED OIL

5.	Does the CESQG mix its hazardous waste with used oil for the purpose of burning for energy recovery? [3745-51-05(J)] If so:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Does the CESQG manage the mixture in accordance with 3745-279-21?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

ON-SITE BURNING IN SPACE HEATER		
10.	Does the generator burn used oil in used-oil fired space heaters? [3745-279-23] If so:	
a.	Does the heater burn only used oil that owner/operator generates or used oil received from household do-it-yourself (DIY) used oil generators?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
b.	Is the heater designed to have a maximum capacity of not more than 0.5 million BTU per hour?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
c.	Are the combustion gases from heater vented to the ambient air?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
<i>NOTE: Ash accumulated in a space heater must be managed in accordance with 3745-279-10(E).</i>		
GENERATOR TRANSPORTATION		
11.	Does the generator have the used oil hauled only by transporters that have obtained a U.S. EPA ID#? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
12.	If the generator self-transport used oil to an approved collection site or to an aggregation point owned by the generator: [3745-279-24]	
a.	Does the generator transport used oil in a vehicle owned by the generator or an employee of the generator? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
b.	Does the generator transport more than 55 gallons of used oil at any time? [3745-279-24]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Used oil generators may arrange for used oil to be transported by a transporter without a U.S. EPA ID # if the used oil is reclaimed under a contractual agreement (i.e., tolling arrangement).</i>		
COLLECTION CENTERS AND AGGREGATION POINTS		
13.	Is the DIY used oil collection center in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-30]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
14.	Is the non-DIY used oil collection center registered with Ohio EPA? [3745-279-31]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input type="checkbox"/>
15.	Is the used oil aggregation point in compliance with the generator standards in 3745-279-20 to 3745-279-24? [3745-279-32]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
<i>NOTE: Complete Used Oil Generator and any other applicable used oil handler checklist (e.g., marketer, burner, etc.) for used oil collection centers and aggregation points.</i>		

**USED OIL INSPECTION CHECKLIST
GENERATORS, COLLECTION CENTERS AND AGGREGATION POINTS**

NOTE: 1. A facility is subject to the federal SPCC regulations (40 CFR 112) if it is non-transportation related (e.g., fixed) and has an aggregate above ground storage capacity greater than 1,320 gallons or a total underground storage capacity greater than 42,000 gallons of oil (including used oil), and there is reasonable expectation of a discharge to navigable waters.
2. Inspectors can check BUSTR's web-site at https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/PublicInquiry.asp to determine if a UST containing used oil is registered with BUSTR. Inspectors may call BUSTR at 614-752-7938 or a BUSTR site coordinator to report an unregistered UST or a UST that appears to not be in compliance with BUSTR regulations. A list of BUSTR coordinators by county are at: https://www.comapps.ohio.gov/sfm/fire_apps/bust/bustr/SearchByCounty.asp.

PROHIBITIONS

1.	Does the generator manage used oil in a surface impoundment or waste pile? If yes:	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the surface impoundment or waste pile regulated as a hazardous waste management unit? [3745-279-12(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: For example, used oil contaminated scrap metal stored in a pile.

2.	Is used oil used as a dust suppressant? [3745-279-12(B)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
3.	Is off-specification used oil fuel burned for energy recovery in devices specified in 3745-279-12(C)?	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Multiple used oil checklists may be applicable if used oil handler is performing multiple tasks (e.g., if generating used oil and shipping directly to a burner, complete generator and marketer checklists at a minimum).

GENERATOR STANDARDS

4.	Does the generator mix hazardous waste with used oil? If so,	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Is the mixture managed as specified in 3745-279-10(B)? [3745-279-21(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>

NOTE: Used Oil mixed with listed (3745-51-30 to 3745-51-35) or characteristic (3745-51-20 to 3745-51-24) hazardous waste are subject to regulation as a hazardous waste, unless the listed hazardous waste is listed solely because it exhibits a hazardous characteristic, and the resultant mixtures do not exhibit a characteristic. Mixtures of used oil and CESQG hazardous waste are subject to OAC Chapter 3745-279.

5.	Does the generator of a used oil containing greater than 1,000 ppm total halogens manage the used oil as a hazardous waste unless the presumption is rebutted successfully? [3745-279-21(B)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
----	--	--

NOTE: If used oil contains greater than 1000 ppm total halogens, it is presumed to be listed hazardous waste until the presumption is successfully rebutted.

6.	Does the generator store used oil in tanks; or containers; or a unit(s) subject to regulation as a hazardous waste management unit? [3745-279-22(A)]	Yes <input type="checkbox"/> No <input type="checkbox"/> N/A <input checked="" type="checkbox"/>
7.	Are containers and aboveground tanks used to store used oil in good condition with no visible leaks? [3745-279-22(B)]	Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
8.	Are containers, above ground tanks, and fill pipes used for underground tanks clearly labeled or marked "Used Oil?" [3745-279-22(C)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
9.	Has the generator, upon detection of a release of used oil, done the following: [3745-279-22(D)]	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
a.	Stopped the release?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
b.	Contained the release?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
c.	Cleaned up and properly managed the used oil and other materials?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
d.	Repaired or replaced the containers or tanks prior to returning them to service, if necessary?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A <input type="checkbox"/>
