Olymco, Inc.
2125 Harrison Ave., SW
Canton, OH 44706

Dear Mr. Sklavenitis:

I have received the November 7, 2008 letter from Barbara Knecht which responded to my September 19, 2008 letter. As outlined below, Olymco has corrected all the violations found during my December 2006 inspection of Olymco located at 2125 Harrison Avenue, SW, in Canton, Ohio.

1. Ohio Revised Code (ORC) 3734.13(D) - Enforcement orders; emergency orders; procedure upon violation.

The November 7, 2008 letter states that Olymco has taken the reverse osmosis system off-line. Therefore, it appears that order # 4 of the Director's Final Findings and Orders signed by Olymco on August 31, 2006 no longer applies.

The November 7, 2008 letter asked for guidance on how to manage any extra rinse water that must be shipped off site. Your main question appears to be whether this would meet the F006 listing. Typically, we would review and evaluate the generator's determination in this regards as part of our next inspection. You may, however, want to discuss this determination with Ohio EPA's Regulatory Services Unit in Columbus, Ohio.

- 2-9. Previously corrected.
10. OAC rules 3745-66-92, 3745-66-93, 3745-66-94, and 3745-66-95 – Hazardous waste tank system requirements.

Based on the discussion in item 1 above, it appears Olymco has corrected the violations that were cited.

- 11-13. Previously corrected.

William Sklavenitis
