RE: B2 AUTO / PICK-A-PART  
STARK COUNTY  
COMPLAINT # 7064  
RETURN TO COMPLIANCE

Chris Barth  
Pick-A-Part and B2 Auto Crusher Facilities  
127 E. Keystone  
Alliance, OH 44601-1718

Dear Mr. Barth:

On October 8, 2008, I revisited the site in regards to the lack of your response to a Second Notice of Violation dated July 1, 2008 and a follow-up email request on September 17, 2008. You were to provide information that employees were familiarized with the proper management of used oils and cleanup, when needed, according to OAC 3745-279-22(D).

During an August visit, the 127 E. Keystone site appeared to be in compliance with the used oil rule. However, employees at the 327 E. Keystone location were not familiar with used oil management practices. Currently however, it appears that operations involving the generation of used oil and fluids have ceased and that the 327 E. Keystone employees have been laid off. You were reminded that when such operations resume, used oils and vehicle fluids need properly managed and the employees familiarized with appropriate management procedures.

Based on our conversation and the observed conditions, it appears all DHWM violations at the above facility locations have been abated. If you have any questions, you may contact me at (330) 963-1146 or at: [ron.shadrach@epa.state.oh.us](mailto:ron.shadrach@epa.state.oh.us).

Sincerely,

Ronald J. Shadrach  
Environmental Specialist  
Division of Hazardous Waste Management
