RE: **PLASTI-KOTE CO., INC.**
OHD 091 620 369
MEDINA COUNTY
PRTC

Mr. Gino Savarino
Plant Manager
Plasti-Kote
1000 Lake Road
Medina, Ohio 44256

Dear Mr. Savarino:

On October 31, 2008, the Ohio EPA received Plasti-Kote's response to the August 27, 2008 Notice of Violation letter (NOV). The Plasti-Kote response included the following attachments:

- A. Universal Waste Training Sign-In Sheet
- B. Universal Waste Training Outline

Based on the information submitted, it appears that Plasti-Kote has adequately addressed the following violation:

- 9. ***Employee training for Small Quantity Handlers of Universal Waste, OAC rule 3745-273-16***

The following violations were abated at the time of the inspection and required no further action:

- 2. ***Labeling Requirements for Hazardous Waste Containers, OAC 3745-52-34(A) (2)***
- 3. ***Required [Emergency] Equipment, OAC rule 3745-65-32***
- 4. ***Contingency Plan Requirements, OAC rule 3745-65-52(D)***
- 5. ***Labeling/markings- standards for small quantity handlers of universal waste, OAC rule 3745-273-14(A)***
- 6. ***Labeling/markings- standards for small quantity handlers of universal waste, OAC rule 3745-273-14(E)***
- 7. ***Packaging of Universal Waste Lamps, OAC rule 3745-273-13(D)(1)***
- 8. ***Accumulation Time for Universal Waste, OAC 3745-273-15(C)***

The October 2008 response indicates that a sample has been collected and that Plasti-Kote is expecting results back by November 21, 2008, that will demonstrate abatement of the violation 1 from the NOV:

Mr. Gino Savarino
Plasti-Kote
November 4, 2008
Page 2

1. **Waste Evaluation, OAC 3745-52-11**

Please submit the data by December 1, 2008 to demonstrate compliance.

In addition, the NOV noted 4 concerns. Only concern 11 required additional action:

11. While reviewing the land disposal restriction forms (LDR) it was unclear as to whether or not two of the waste streams (profile #0704-06122 and #0210-11567) currently going to Rineco have underlying hazardous constituents (UHCs) which should be noted on the LDR. As we stated during the inspection, if Rineco is treating and testing for all UHCs, then these do not need to be listed on the form. Plasti-Kote should determine if there are any UHCs in the waste above the treatment standards and if so, if Rineco is treating and testing for these constituents. If not, Plasti-Kote needs to amend the LDR form and notify Rineco and submit this information to Ohio EPA.

Please submit the final determination in regards to the UHCs.

Failure to list specific deficiencies and/or violations in this communication does not relieve Plasti-Kote from the responsibility of complying with all applicable laws, rules and regulations.

Further be advised that any instances of non-compliance can continue as subjects of pending or future enforcement actions.

Please respond to this letter by December 1, 2008. Should you have any questions or require additional information, please contact Frank Popotnik, my supervisor, or me at (330) 963-1200.

Sincerely,

Karen L. Nesbit
Division of Hazardous Waste Management
