**RE: OHD 004200044, ASHTABULA COUNTY, RCRA/LQG
NOTICE OF VIOLATION / RETURN TO COMPLIANCE**

Dear Mr. Lazo:

On May 20, 2011, Ohio EPA Division of Materials and Waste Management (DMWM) conducted a compliance evaluation inspection at the Premix, Inc. (Premix) facility in North Kingsville, Ohio. Premix is a manufacturer of thermoset composite materials and parts, and qualifies as a Large Quantity Generator (LQG) of hazardous waste. Hazardous waste streams generated at the facility include ignitable waste (D001, F003).

The purpose of this inspection was to determine Premix's compliance with Ohio's hazardous waste laws and regulations as found under the Ohio Revised Code and Ohio Administrative Code ("ORC" and "OAC," respectively). Premix was represented by you while Ohio EPA was represented by me. Ohio EPA's inspection included an inspection of the facility and a review of written documentation.

Based on this inspection, Ohio EPA has determined that Premix has violated the following state hazardous waste regulations:

1. **OAC Rule 279-22(C)(1) Used oil requirements for generators:** *Containers and aboveground tanks used to store used oil at generator facilities must be labeled or marked clearly with the words "Used Oil."*

At the time of this inspection, Ohio EPA observed on drum of used oil which was not labeled with the words "Used Oil."

Upon being informed of this violation, Premix immediately labeled the drum with the words "Used Oil." Ohio EPA therefore considers this violation abated.

2. **OAC Rule 3745-65-52 ((D) Content of contingency plan.** *The plan must list names, addresses, and phone numbers (office and home) of all persons qualified*

to act as emergency coordinator (see rule 3745-65-55 of the Administrative Code), and this list must be kept up to date. Where more than one person is listed, one must be named as primary emergency coordinator and others must be listed in the order in which they will assume responsibility as alternates.

At the time of this inspection, Premix did not have a list of emergency coordinators which included the home addresses.

By e-mail dated May 23, 2011, Ohio EPA received an updated list of emergency coordinators from Walt McSherry which included the home addresses of the emergency coordinators. Ohio EPA therefore considers this violation abated and no further action is required.

Failure to list specific deficiencies in this communication does not relieve Premix from the responsibility of complying with all applicable hazardous waste regulations. Should you have any questions, please feel free to call me at (330) 963-1181.

Sincerely,

Suzanne Prusnek
Environmental Specialist

NOTE: This is done by determining if the HW /soil contains levels of constituents greater than the levels given in its LDR treatment standard in 3745-270-40. However, if a specific treatment method is given in 3745-270-40 for the HW, no determination is required [3745-270-07(A)(1)(b)].
