Rob DeRose, Plant Manager
QP Manufacturing
215 Fifth Ave.
Chardon, Oh 44024

Dear Mr. DeRose:

On November 18, 2010 I received two photos from you via e-mail regarding our inspection on September 29, 2010. One photo showed the proper labeling for used lamps on a recycling pail and the other photo showed used oil labels on totes.

The status of the previously cited violations is as follows:

1. Used Oil Container Labels - OAC 3745-279-22(C)

Please confirm that all totes containing used oil are labeled "used oil".

2. Spent Lamp Containers- OAC 3745-273-13(D)(1)

Please confirm all spent lamps upon generation are placed into the appropriate container and that the container is stored closed.

3. Unlabelled Spent Lamps - OAC 3745-273-14(E)

The photo submitted documents that proper labeling is present on the lamp recycling container. Please confirm all spent lamps upon generation are placed into the container shown in the photograph and that the container is stored closed.

4. Employee Training - OAC 3745-273-16

Your employees are required to be informed of proper handling or management of universal waste lamps. Please confirm that all employees involved in the management of spent lamps have been informed of their proper management.

Please submit the above requested confirmations within 15 days of the date of this letter.
